SOCIAL CRIMES

A NOVEL

Social Crimes New Edition

Denis Lawton, Barry Dufour

Social Crimes New Edition:

Crime Control and Everyday Life in the Victorian City David Churchill, 2017 The history of modern crime control is usually presented as a narrative of how the state wrested control over the governance of crime from the civilian public. Most accounts trace the decline of a participatory discretionary culture of crime control in the early modern era and its replacement by a centralized bureaucratic system of responding to offending. The formation of the new professional police forces in the nineteenth century is central to this narrative; henceforth it is claimed the priorities of criminal justice were to be set by the state as ordinary people lost what authority they had once exercised over dealing with offenders. This book challenges this established view and presents a fundamental reinterpretation of changes to crime control in the age of the new police. It breaks new ground by providing a highly detailed empirical analysis of everyday crime control in Victorian provincial cities, revealing the tremendous activity which ordinary people displayed in responding to crime alongside a rich survey of police organization and policing in practice. With unique conceptual clarity it seeks to reorient modern criminal justice history away from its established preoccupation with state systems of policing and punishment and move towards a more nuanced analysis of the governance of crime. More widely the book provides a unique and valuable vantage point from which to rethink the role of civil society and the state in modern governance, the nature of agency and authority in Victorian England and the historical antecedents of pluralized modes of crime control which characterize contemporary society.

SOCIAL WORK IN JUVENILE AND CRIMINAL JUSTICE SYSTEMS (4th Ed.) David W. Springer, Albert R. Roberts, 2017-05-16 *Social Work in Juvenile and Criminal Justice Systems* sets the standard of care for mental health treatment and the delivery of social services to crime victims, juvenile and adult offenders and their families. The chapters are all authored by experts in the field and all committed to the mission of social justice; they are written with the clear understanding that we cannot study criminal justice in a vacuum. Therefore a major focus of the book is on the renewed growing sense of the profession's obligation to social justice. Each chapter interconnects with the various components of juvenile and criminal justice. Another prominent aspect of the book is that it is strength-based. It views those involved in the criminal and juvenile justice systems as individuals rather than inmates or criminals, each with unique positive talents and abilities. The book is divided into four sections. The first section discusses forensic social work, including crime and delinquency theories, trends and ethical issues. The second section prepares social workers for practice in correctional institutions and explores crisis intervention with victims of violence, reentry of adult offenders in society and aging in prison. The third section covers assessment and intervention in child sexual abuse, mental health and substance abuse, interpersonal violence and prevention, child welfare and juvenile justice. The final section presents an overview on social work in the twenty-first century, which includes restorative justice and the justice system, new ways of delivering justice, domestic violence, neighborhood revitalization, race and ethnicity and social work practice with LGBTQ offenders. This book will be the best single source on

social work in criminal justice settings and will prove to be an invaluable resource for the many professionals who have responsibility for formulating and carrying out the mandates of the criminal justice system
