Social Forestry and Forest Management S. K. Ghosh,Rita Singh,2003 The Present State Of Forestry In Our Country Reveals That The Indian Forests Are Neither Able To Fulfil The Ever Increasing Demand Nor Can Sustain The Ecological Security Social Forestry Purely An Indian Concept Has Developed Under Indian Environment And Culture It Has Been Adopted And Modified Differently By Different States India Second In Population In The World Needs Social Forestry Programmes Because Increasing Population Forces The Forest Land To Be Used For Agriculture Industries Housing And Urban Development But The Policies Relating To Forests Soil Conservation Areas For Recreation Although Origination From Different Departments Of The State Government Need To Be Fully Integrated In The Larger Interests Of Natural Resource Management And Ecology *Forests People and Power* Piers Blaikie,2013 With tens of millions of hectares and hundreds of millions of lives in the balance the debate over who should control South Asia's forests is of tremendous political significance This book provides an insightful and thorough assessment of important forest management transitions currently underway

MARK POFFENBERGER EXECUTIVE DIRECTOR OF COMMUNITY FORESTRY INTERNATIONAL The contributions in this volume not only breathe life into the field of writing and analysis related to forests they do so on the strength of extraordinarily insightful research Kudos to Springate Baginski and Blaikie for providing us with a set of thoroughly researched provocative studies that should be required reading not only for those interested in community forestry in south Asia but in resource governance anywhere **ARUN AGRAWAL** ASSOCIATE PROFESSOR OF NATURAL RESOURCES it challenges our assumptions of the benefits of participatory forest management and the role of forestry in poverty reduction It should be of interest to policy makers and to all those who have been involved with the struggle of transforming forestry over the decades **DR MARY HOBLEY** HOBLEY SHIELDS ASSOCIATES NATURAL RESOURCE MANAGEMENT AND PLANNING CONSULTANCY A rare combination of extensive field study social science insights and policy studies will be of immense value **DR N C SAXENA** MEMBER OF NATIONAL ADVISORY COUNCIL GOVERNMENT OF INDIA In recent decades participatory approaches to forest management have been introduced around the world This book assesses their implementation in the highly politicized environments of India and Nepal The authors critically examine the policy implementation processes and causal factors affecting livelihood impacts Considering narratives and field practice with data from over 60 study villages and over 1000 household interviews the book demonstrates why particular field outcomes have occurred and why policy reform often proves so difficult Research findings on which the book is based are already influencing policy in India and Nepal and the research and analysis have great relevance to forestry management in a wide range of countries Published with DFID [Monitoring and Evaluation of Social Forestry in India](#) R. Community Forestry in Nepal Richard Thwaites, Robert

Fisher, Mohan Poudel, 2017-12-11 Community forestry focuses on the link between forest resources and livelihoods and contributes to forest conservation and reforestation. It is widespread in Nepal with a very high proportion of the rural population involved and is widely recognized as one of the most successful examples of community forestry in Asia. Through a combination of literature reviews and original research this volume explores key experiences and outcomes of community forestry in Nepal over the last four decades as a model for improving forest management and supporting local livelihoods. The book takes a critical approach recognizing successes especially in forest conservation and restoration along with mixed outcomes in terms of poverty reduction and benefits to forest users. It recognizes the way that community forestry has continued to evolve to meet new challenges including the global challenges of climate change, environmental degradation and conservation as well as national demographic and social changes due to large scale labour migration and the growing remittance economy. In addition to examining the changes and responses the book explores ways that community forestry in Nepal might move forward. Lessons from Nepal have relevance to community forestry and community based approaches to natural resource management around the world that are also experiencing global pressures and opportunities
