

Social Gardens

**Kathryn Moore, Anastasia
Nikologianni, Alex Albans, Paul Cureton**

Social Gardens:

Urban gardening and the struggle for social and spatial justice Chiara Certomà, Susan Noori, Martin Sondermann, 2019-02-25 The book presents an in depth and theoretically grounded analysis of urban gardening practices re emerging worldwide as new forms of bottom up socio political participation By complementing the scholarly perspectives through posing real cases it focuses on how these practices are able to address together with environmental and planning questions the most fundamental issues of spatial justice social cohesion inclusiveness social innovations and equity in cities Through a critical exploration of international case studies this collection investigates whether and how gardeners are willing and able to contrast urban spatial arrangements that produce peculiar forms of social organisation and structures for inclusion and exclusion by considering pervasive inequalities in the access to space natural resources and services as well as considerable disparities in living conditions

Space and Food in the City Alec Thornton, 2018-05-02 Urban social movements are influential agents in shaping cityscapes to reflect values and needs of communities Alongside urban population growth various forms of urban agriculture activity such as community and market gardens are expanding globally This book explores citizens rights to city and alternative views on urban space and the growing importance of urban food systems

Integrated Landscapes in Policy, Practice and Everyday Life Kathryn Moore, Anastasia Nikologianni, Alex Albans, Paul Cureton, 2025-06-27 Exploring the ways in which an integrated landscape vision can help deliver regional national and international agendas this book investigates how a new idea of landscape can reimagine governance policy economics culture identity health transport and development priorities by connecting in a more powerful and meaningful way with local aspirations and demands Developed in fieldwork undertaken over the last decade the capacity of a landscape led approach to deal with problems such as rapid urbanisation water and food security climate change air pollution and health is both timely and topical Divided into three main sections it includes illustrated case studies from the UK Europe East Asia South Asia and more As part of a strategy to capture build and disseminate expertise in this approach the book aims to develop an interdisciplinary body of work that will appeal to academics and professionals by bringing together a number of contributors who are operating at the cutting edge of landscape led large scale transformation This book is essential for practitioners and academics of landscape architecture as well as students in the architecture and design fields

The Innovation Biosphere Eunika Mercier-Laurent, 2015-06-15 This book addresses those involved in research or R D It introduces the principles of eco innovation and the importance of the impact of their activity This topic is considered in the context of natural and digital ecosystems powered by intelligent assistants technology Chapter 1 positions the innovation as a process and component of ecosystems including research enterprises technology digital ecosystems and environment Sustainable success is a condition of survival and an expectation of those who invest in innovation Chapter 2 describes the main elements to consider and gives some tips Chapter 3 presents some selected initiatives at the national and European

level and provides a way of measuring success Social Notes Concerning Social Reforms, Social Requirements, Social Progress ,1879 **Innovation, Quality and Sustainability for a Resilient Circular Economy** Giovanni Lagioia, Annarita Paiano, Vera Amicarelli, Teodoro Gallucci, Carlo Ingraio, 2024-02-23 This book is a selection of the best papers presented at the XXX National Conference of Commodity Science held in Bari Italy on 27 to 28th October 2022 It is designed to help advance the knowledge and application of Commodity Science in innovation quality and sustainability principles and goals Furthermore it provides support in confronting the current environmental and socioeconomic challenges and contributes to addressing and solving those concerns in a circular economy context Under this perspective the book highlights the central role that Commodity Science can play also considering the multiple possibilities of interacting with other relevant research sectors like food production and packaging engineering environmental science organisation management decision science and social science so enabling valorisation and maximisation These interactions will appeal to academics producers decision and policymakers and other stakeholders Thus this book has a multidisciplinary holistically integrated approach to Commodity Science that contributes to enhancing the current literature and knowledge *The Enhancement of the Italian Territory* Antonio Invernale, Marzia Morena, Tommaso Truppi, 2024-03-18 This book presents some alternative models and financial instruments for the enhancement of public properties and urban regeneration operations Set against the backdrop of the current scenario of competition between cities to attract investments but also of cooperation in front of challenges posed by sustainable development issues the book describes the role played by Public Administrations through the measurement and comparison of their efficiency in the bureaucratic procedures in the field of real estate and their knowledge and use of some alternative financial tools particularly civic crowdfunding Following a brief overview of public private partnership the book highlights the potentialities of civic crowdfunding for the enhancement of public real estate assets in the Italian territory related to small municipalities also including some case studies These good practices prove civic crowdfunding a useful tool not only to finance and implement public interest initiatives but also to transparently and directly involve citizens **The New Urban Park** Hal Rothman, 2004 From Yellowstone to the Great Smoky Mountains America's national parks are sprawling tracts of serenity most of them carved out of public land for recreation and preservation around the turn of the last century America has changed dramatically since then and so has its conceptions of what parkland ought to be In this book one of our premier environmental historians looks at the new phenomenon of urban parks focusing on San Francisco's Golden Gate National Recreation Area as a prototype for the twenty first century Cobbled together from public and private lands in a politically charged arena the GGNRA represents a new direction for parks as it highlights the long standing tension within the National Park Service between preservation and recreation Long a center of conservation the Bay Area was well positioned for such an innovative concept Writing with insight and wit Rothman reveals the many complex challenges that local leaders politicians and the NPS faced as they attempted to administer sites in this area He tells how

Representative Phillip Burton guided a comprehensive bill through Congress to establish the park and how he and others expanded the acreage of the GGNRA redefined its mission to the public forged an identity for interconnected parks and struggled against formidable odds to obtain the San Francisco Presidio and convert it into a national park Engagingly written The New Urban Park offers a balanced examination of grassroots politics and its effect on municipal state and federal policy While most national parks dominate the economies of their regions GGNRA was from the start tied to the multifaceted needs of its public and political constituents including neighborhood ethnic and labor interests as well as the usual supporters from the conservation movement As a national recreation area GGNRA helped redefine that category in the public mind By the dawn of the new century it had already become one of the premier national park areas in terms of visitation Now as public lands become increasingly scarce GGNRA may well represent the future of national parks in America Rothman shows that this model works and his book will be an invaluable resource for planning tomorrow s parks **Social Service Review**

,1919 **Sustainable Development and Planning** X G. Passerini,N. Marchettini,2018-12-17 This volume contains research from the 10th International Conference on Sustainable Development and Planning The papers included in this volume form a collection of research from academics policy makers practitioners and other stakeholders from across the globe who discuss the latest advances in the field Problems related to development and planning which affect rural and urban areas are present in all regions of the world Accelerated urbanisation has resulted in deterioration of the environment and loss of quality of life Urban development can also aggravate problems faced by rural areas such as forests mountain regions and coastal areas amongst many others Taking into consideration the interaction between different regions and developing new methodologies for monitoring planning and implementation of novel strategies can offer solutions for mitigating environmental pollution and non sustainable use of available resources Energy saving and eco friendly building approaches have become an important part of modern development which places special emphasis on resource optimisation Planning has a key role to play in ensuring that these solutions as well as new materials and processes are incorporated in the most efficient manner The application of new academic findings to planning and development strategies assessment tools and decision making processes are all covered in this book Social Sciences Lakewood, O. Board of Education,1931
