Handbook of Political Participation Marco Giugni, Maria Grasso, 2022 The Oxford Handbook of Political Participation provides readers with up to date knowledge on the wide ranging topics covered in this field and considers the key theoretical and methodological pluralism in the area as well as the most recent developments. One of the aims of this Handbook is to bring together two research traditions from political science and sociology bridging research in political sociology and social movement studies. Accordingly the Handbook mainly brings together authors coming from both the politics and sociology research traditions as well as key authors working on political participation coming also from other fields such as psychology, economics, anthropology and geography. The volume provides the first comprehensive up to date treatment of political participation in all of its varied expression. It covers a wide range of topics relating to the study of political participation both from a theoretical and methodological perspective. It brings together the political science and political sociology tradition on the one hand and the social movement sociological tradition on the other. It is sensitive to theoretical and methodological pluralism as well as the most recent developments in the field and includes discussions combining perspectives that have traditionally been treated separately in the literature as well as discussions of current trends and future directions for research in this field
