James Joyce's Early Works in Ireland's Textual Cultures Niels Caul, 2025-10-16 Putting Joyce back into dialogue with other Irish writers of his generation this book shows that his experiments with narrative styles and structures were a renegotiation rather than a rejection of earlier Irish conventions While Joyce is undoubtedly the best known other Irish writers were also influenced by European movements in naturalism and decadence that were shaping European Modernism as it emerged in the 1890s Reading Joyce's works in the context of often forgotten contemporaries such as George Moore George Egerton Hannah Lynch Shan Bullock Forrest Reid and Charlotte O'Connor Eccles enhances our understanding of their works as well as Joyce's both thematically and stylistically and shines a much needed light on previously critically underexamined writers By focusing on the transformation of Joyce from Irish writer to Modernist artist we gain crucial insights into why many of Joyce's contemporaries are not read today despite their initial popularity This book utilises Joyce's troubled publication and reception history to identify the wider trends of the Irish short story cycle and Bildungsroman thereby enhancing readers understanding of the literary marketplace for Irish books in this period *Sadeq Hedayat* Homa Katouzian, 2021-10-21 Sadeq Hedayat is the most famous and the most enigmatic Iranian writer of the 20th century This book is the first comprehensive study of Hedayat's life and works set against the background of literary and political developments in a rapidly changing Iran over the first half of the 20th century Katouzian discusses Hedayat's life and times and the literary and political circles with which he was associated But he also emphasises the uniqueness and universality of his ideas that have both influenced and set Hedayat apart from other Iranian writers of the period and that have given him a mystique that has been instrumental in his posthumous success with acclaimed works such as *The Blind Owl* This second edition is fully revised and updated to reflect on recent debates and scholarship on Sadeq Hedayat **Encyclopedia of the Novel** Paul Schellinger, 2014-04-08 The Encyclopedia of the Novel is the first reference book that focuses on the development of the novel throughout the world Entries on individual writers assess the place of that writer within the development of the novel form explaining why and in exactly what ways that writer is important Similarly an entry on an individual novel discusses the importance of that novel not only from analyzing the particular innovations that novel has introduced and the ways in which it has influenced the subsequent course of the genre A wide range of topic entries explore the history criticism theory production dissemination and reception of the novel A very important component of the Encyclopedia of the Novel is its long surveys of development of the novel in various regions of the world **Pluralistic Approaches to Art Criticism** Douglas Emerson Blandy, Kristin G.
