Social Indicators Of Development 1996:

Social Indicators of Development ,1995 Social Indicators of Development. 198?-1996 ,1996 Social Indicators of Development 1996 World Bank,1996 Providing the social indicators for more than 190 economies this text includes estimates of fertility mortality illiteracy access to healthcare and shares of GDP for selected social expenditures The indicators describe the characteristics of poverty and the effectiveness of efforts to reduce poverty International comparisons are made easier by a summary table that takes a cross country look at a selected array of indicators The data are gathered from governments specialized international agencies and World Bank files **BIBLIO 2000: IICA Jamaica Library Database** , **Quality of Life Research** Mark Rapley,2003-03-18 Many books have been published on quality of life research in recent years but few are as thought provoking or original as this one It is essential reading for anyone who a serious and critical interest in this topic Nurse Researcher This was a fun book to read and I would suggest it be used for a graduate level seminar where of course it would lead to a lively discussion Quality of Life Research Quality of life is one of the fastest growing areas of research and policy The concept has an intuitive appeal as a measure of the well being of individuals communities and nations It is increasingly promoted as an aid for political decisions and public funding But what does the concept really mean And how can it be operationalized in teaching and research This is the first introductory text to offer a critical overview of the concept of quality of life and the ways in which it is researched Using an inter disciplinary approach the book covers every aspect of the concept and its application from the calculation of Quality Adjusted Life Years to conversation analysis and from the estimation of the quality of life of nation states to ethnographic studies of the life quality of individual disadvantaged people The book fills a huge gap in teaching and research Written with authority and the need to produce an accessible critical introduction to the field it will be of interest to students of sociology psychology public health and nursing health economics politics and medicine Quality-of-Life Community Indicators for Parks, Recreation and Tourism Management Megha Budruk,Rhonda Phillips,2010-11-25 While community quality of life indicators are gaining much needed attention in both scholarly work and practice their application in the areas of parks recreation and tourism management are not as well known The applicability of indicator systems for natural resource and natural resource area management within the parks and recreation arena is very high including urban parks and recreation programs and their influence on quality of life Tourism is also an area that needs much more work in terms of assessing impacts as well as developing indicators for gauging progress in the long term All three areas are an integrated discipline and most programs throughout the developed world are housed co jointly There are several researchers across the globe who are conducting innovative work in these areas The editors feel that a volume on the topic will spur additional interests as well as serve to lead the research efforts *Principles and Practices of Integrated Watershed Management in India* Guy Honore,2002
