Social Life In The Bahamas 1880s1920s:

Race and Class in the Colonial Bahamas, 1880-1960 Gail Saunders, 2017-10-16 Saunders resoundingly affirms the relevance of island history. Scholars will appreciate the detail and insights. Choice. Deftly unravels the complex historical interrelationships of race, color, class, economics, and environment in the Colonial Bahamas. An invaluable study for scholars who conduct comparative research on the British Caribbean. Rosalyn Howard, author of *Black Seminoles in the Bahamas*. Saunders is to be commended for a scholarly study that prominently features the non-white majority in the Bahamas, a group which usually has been overlooked. Whittington B. Johnson, author of *Post Emancipation Race Relations in The Bahamas*. In this one-of-a-kind study of race and class in the Bahamas, Gail Saunders shows how racial tensions were not necessarily parallel to those across other British West Indian colonies but instead mirrored the inflexible color line of the United States. Proximity to the U.S. and geographic isolation from other British colonies created a uniquely Bahamian interaction among racial groups. Focusing on the post-emancipation period from the 1880s to the 1960s, Saunders considers the entrenched though extra-legal segregation prevalent in most spheres of life that lasted well into the 1950s. Saunders traces early black nationalist and pan-Africanism movements as well as the influence of Garveyism and Prohibition during World War I. She examines the economic depression of the 1930s and the subsequent boom in the tourism industry which boosted the economy but worsened racial tensions. Proponents of integration predicted disaster if white tourists ceased traveling to the islands. Despite some upward mobility of mixed-race and black Bahamians, the economy continued to be dominated by the white elite, and trade unions and labor-based parties came late to the Bahamas. Secondary education, although limited to those who could afford it, was the route to a better life for non-white Bahamians and led to mixed-race and black persons studying in professional fields which ultimately brought about a rising political consciousness. Training her lens on the nature of relationships among the various racial and social groups in the Bahamas, Saunders tells the story of how discrimination persisted until at last squarely challenged by the majority of Bahamians.

Nationalism in the Era of Globalisation-Issues from Guyana and the Bahamas Silvius E. Wilson, 2008-02-26 This book came out of the need to highlight working peoples' contribution to the process of self-organization and development in the former British Guiana, hereafter referred to as Guyana, and The Bahamas. Africans and other sections of the working people in these and other countries of the Caribbean have succeeded through their labour and transforming genius in building communities and produce crops and other commodities which aided metropolitan development. Guyanese workers dug canals, constructed dams, and other necessary infrastructure which made the Atlantic coast inhabitable, and crops and livestock flourished in a hostile swampy and insect-infested environment. In The Bahamas, working people in New Providence and the Family Islands pioneered the fishing and boat-building industries and created the infrastructure for what became the leading tourist destination in the region. Organization at the local and grassroots level played an important role in the attainment of working

peoples objectives in the region wide nationalist movement during the 1930s through 50s and gave rise to major developments such as the granting of adult suffrage trade union legislation opening up of Crown lands majority rule and independence The analysis will support the position that a reflection on the lessons of the pre independence struggle as well as revisiting the spirit of collaboration and patriotism with which working people approached the objectives of political representation job satisfaction and national identity can provide relevant models to inform strategies to combat challenges which are brought about by globalisation Issues relating to regional and international collaboration as well as national response to global developments in trade production and social organisation can benefit from a higher level of popularity and national awareness if citizens participation at the community and other levels of society is incorporated in the national discourse and response strategy The title Nationalism in the era of Globalisation intends to draw attention to the new nationalism which is informing the new role of the nation state in which central governments are gradually assuming the role of facilitator in creating an enabling environment for the growth of the private sector as well as protect investors guard against public sector inefficiency corruption and waste facilitate sound macroeconomic management that encourages economic growth and maintains price stability in the process embrace democratic values respect diversity and open social spaces for peoples participation Part of the role of government is also establish the structures and monitoring devices in order to avoid or reduce the severity of economic shocks in an era of increasing liberalization One manifestation of this in the emergence of a complex terrain of bilateral and multilateral arrangements between and among nations of the Americas Smaller states are seeking affiliation and membership within regional groupings such as NAFTA and MERCOSUR to secure the best trade deals and access to a wider market under the most favourable terms Larger states such as Venezuela and Brazil are presenting their own vision of a Free Trade Area Such a vision is based on sustainability the eradication of poverty and empowerment of the masses In this tradition some states in the Caribbean and South America have challenged the hegemony of the USA in a Washington initiated model of the proposed Free Trade Area of the Americas FTAA and proposing instead a more progressive model based upon the recognition of several centres of influence within the grouping These developments are addressed in the book within the context of the way in which national and regional response must be channeled to influence the course of events including the role and guiding principles of the World Trade Organization WTO the United Nations UN and other International
