*Radical Critiques of the Law* Stephen M. Griffin, Robert C. L. Moffat, 1997 The past two decades have seen an outpouring of work in legal theory that is self consciously critical of aspects of American law and the institutions of the liberal state In this lively volume eminent scholars in philosophy law and political science respond to this recent scholarship by exploring what constitutes a radical critique of the law examining such theories as critical legal studies feminist theory and theories of difference and critical race theory The authors consider whether the critiques advanced in recent legal theory can truly be called radical and what form a radical critique of American law should take Writing at the cutting edge of the critique of critical legal theory they offer insights first on critical legal scholarship then on feminist political and legal theory A third group of contributions questions the radicalness of these approaches in light of their failure to challenge fundamental aspects of liberalism while a final section focuses on current issues of legal reform through critical

views on criminal punishment including observations on rape and hate speech Each major essay describes the underlying principles in the development of a radical legal theory and addresses unresolved questions relating to it while accompanying commentaries present conflicting views The resulting dialogue explores wide ranging issues like equity value relativism adversarial and empathic legal advocacy communitarianism and the social contract impartiality and contingency natural law and corrective justice A common thread for many of the articles is a focus on the social dimension of society and law which finds the individualism of prevailing liberal theories too limiting Radical Critiques of the Law is particularly unique in presenting critical and feminist approaches in one volume along with skeptical commentary about just how radical some critiques really are Proposing alternative critiques that embody considerably greater promise of being truly radical it offers provocative reading for both philosophers and legal scholars by showing that many claims to radicalism are highly problematic at best

Iraqi Christian Minority and Identity: A Critical Discourse Analysis of Selected English and Arabic Novels Nassier Al-Zubaidi, Marwa Al-Bazzaz, 2023-04-21 Doctoral Thesis Dissertation from the year 2022 in the subject English Language and Literature Studies Linguistics University of Baghdad language English abstract The study of identity within a given discourse is one of the significant topics in the field of critical discourse analysis Iraqi Christian identity has undergone various political and social changes during different historical periods leading to the emergence of the Christian identity as a minority in society The present study investigates the representation of the identity of Iraqi Christian minority in the narrative discourse of selected English and Arabic novels More precisely the present study is a critical discourse analysis of the Christian identity as a minority in selected English and Arabic novels namely the English novel Abducted in Iraq by Saad Hanna 2017 and the Arabic Novel The American Granddaughter by Inaa m Kachachi 2009 The study aims at first identifying the identity representation of Iraqi Christian minority in the narrative discourse of selected English and Arabic novels before and after 2003 war second investigating the textual resources and their role in the identity construction of Iraqi Christian minority in the narrative discourse of selected English and Arabic novels before and after 2003 war third identifying the discursive resources and their role in the identity construction of Iraqi Christian minority in the narrative discourse of selected English and Arabic novels before and after 2003 war fourth examining the social resources and their role in the identity construction of Iraqi Christian minority in the narrative discourse of selected English and Arabic novels before and after 2003 war That is it examines the role played by power and social dynamisms in the identity construction under analysis and fifth investigating similarities and differences in the identity construction of Iraqi Christian minority in the narrative discourse of selected English and Arabic novels before and after 2003 war at the textual discursive and social levels of analysis For achieving the afore mentioned aims a purposive sampling technique is used to choose the most representative data from the selected English and Arabic novels The data is analysed according to a synthesised theoretical framework based on Wodak et al 2009 Fairclough 2015 Wortham 2001 and Graumann 1999 The data are analysed both qualitatively and

quantitatively Ibom Journal of Social Issues ,1996 **Negative Economic Aspects of Higher Education** Caroline Mutuku,2018-07-18 Seminar paper from the year 2018 in the subject Business economics Economic and Social History grade 1 language English abstract Educational expansion is usually given paramount consideration in the modern society It is the dream of every parent to ensure his child acquires higher education This desire has led to an immense expansion higher education in the United States over the twentieth century It is explicit that higher education bears a wide range of benefits to individuals as well as the government Foremost individuals with higher education benefit from what is referred to as positive selection A utility maximization paradigm based on economic factors holds that attainment of higher education corresponds to high economic returns The precepts of the positive selection hypothesis as described by Heckman Urzua Vytlacil 2006 hold that those who acquire higher education benefit most from it As such it is apparent that higher education has economic and social benefits For instance college graduates receive better remuneration than their counterparts with a high school diploma It is also true that higher education attracts a high social esteem in the modern society Despite these benefits higher education has negative aspects too Therefore this paper aims at providing a comprehensive discussion of the negative aspects of higher education *Social Problems* Robert Heiner,2016 Social Problems An Introduction to Critical Constructionism Fifth Edition synthesizes conflict theory and social constructionism to help students think critically about social problems A concise student friendly alternative to all encompassing standard textbooks this book examines a single theoretical paradigm in depth demonstrating how theory can be used to understand a range of critical social issues
