Social Stratification Canada:

Social Stratification Dr Paul Lambert, Ms Roxanne Connelly, Professor Robert M Blackburn, Professor Vernon Gayle, 2013-02-28 Research into social stratification and social divisions has always been a central component of sociological study. This volume brings together a range of thematically organised case studies comprising empirical and methodological analyses addressing the challenges of studying trends and processes in social stratification. This collection has four themes. The first concerns the measurement of social stratification since the problem of relating concepts, measurements and operationalizations continues to cause difficulties for sociological analysis. This book clarifies the appropriate deployment of existing measurement options and presents new empirical strategies of measurement and interpretation. The conception of the life course and individual social biography is very popular in modern sociology. The second theme of this volume exploits the contemporary expansion of micro level longitudinal data and the analytical approaches available to researchers to exploit such records. It comprises chapters which exemplify innovative empirical analysis of life course processes in a longitudinal context thus offering an advance on previous sociological accounts concerned with longitudinal trends and processes. The third theme of the book concerns the interrelationship between contemporary demographic, institutional and socioeconomic transformations and structures of social inequality. Although the role of wider social changes is rarely neglected in sociological reviews, such changes continue to raise analytical challenges for any assessment of empirical differences and trends. The fourth theme of the book discusses selected features of policy and political responses to social stratification. This volume will be of interest to students, academics and policy experts working in the field of social stratification. **Social Stratification: Canada** James E. Curtis, 1973 **Social Inequality in Canada** James Curtis, Edward G. Grabb, Neil Guppy, 2004 Appropriate for courses in social inequality or social stratification. Courses are usually found in sociology departments but sometimes also in history, philosophy, political science and economics departments. *Social Inequality in Canada: Patterns, Problems and Policies* introduces students to the major aspects or dimensions of social inequality in Canada. This collection of thirty-one articles addresses topics that are central to a range of courses including Social Inequality, Social Class, Social Stratification, Social Issues and Canadian Society. The new edition has been revised to reflect important new research and changes in the nature of social inequality. *Socialization and Values in Canadian Society* Elia Zureik, 1975-01-15 **Max Weber on Power and Social Stratification** Catherine Brennan, 2020-07-09 First published in 1997, this book revolves around a textual analysis of the Weberian thesis that classes, status groups and parties are phenomena of the distribution of power within a community. An internal reconstruction of Weber's own ideas on what is called social stratification in contemporary sociological discourse is undertaken. The reason for this reconstruction inheres in the fact that Weber's thought, especially in the field of social stratification, has been modified and misappropriated to such an extent that Weber himself is usually lost in the commentaries. Moreover, this reconstruction is crucial because the secondary

literature does not contain a single account teasing out the analytic structure underlying Weber's statements on the nature of social inequality in various societies. It is the principal intention of the book then to retrieve the essential form and significance of Weber's ideas on social stratification.

Canadian Society in the Twenty-First Century, Fourth Edition Trevor W. Harrison, John W. Friesen, 2021-03-03 Confederation may have established Canada's nationhood in 1867 but the relationships framing Canada's modern existence go back much further. Employing a unique socio-historical perspective, *Canadian Society in the Twenty-First Century* examines three formative relationships that have shaped the country: Canada and Quebec, Canada and the United States, and Canada and Indigenous nations. Now in its fourth edition, this engaging text offers students an overview of Canadian society through a series of connections rather than a collection of statistics. Trevor W. Harrison and John W. Friesen weave together complex aspects of the nation's economic, political, and socio-cultural development. They guide readers to use this interdisciplinary framework to consider some of the tough questions that Canada is likely to face in adjusting to demands and challenges in the next few decades. Reflecting the most current scholarship in the field, this revised edition features new discussions on issues such as the current crisis of neo-liberal globalization, Canada's petroleum industry, global warming, the Wet'suwet'en dispute in 2020, and the COVID-19 pandemic. Exploring the unique character of Canada today, this text is a vibrant resource for sociology courses on Canadian society as well as courses in Canadian studies and Canadian history.

Ideological Perspectives on Canada M. Patricia Marchak, 2011 In *Ideological Perspectives on Canada*, Patricia Marchak builds on her earlier descriptions of Canadian reality: its liberalism and socialism to argue that today's corporatism differs from its forerunners in both its values and its definition of society. Marchak argues that liberalism and socialism have many commonalities such as the goals of equality and freedom for citizens. Corporatism, however, is opposed to equality and promotes an authoritarian hierarchy resembling the older conservative ideology. To support her argument, Marchak provides a general overview of the study of ideologies, analyzes liberalism and socialism in the context of Canada, and uses Marxist theory to explain past and present class structure and the emergence of a corporatist social structure. A valuable contribution to the debate about the society we live in, *Ideological Perspectives on Canada* attempts to look at ideologies from an objective standpoint while admitting that analysts can never fully remove themselves from the web of their own society, which in the Canadian case is steeped in liberalism, socialism, and corporatism.

Politics and Ideology in Canada Michael Ornstein, Michael Stevenson, 2003-02-18 Winner of the Harold Adams Innis Prize, *Politics and Ideology in Canada* examines a period of crucial historical change in Canada beginning in the mid-1970s when the crisis of the Keynesian welfare state precipitated a transition to a new political order based on the progressive downsizing of state involvement in the economy and society. Using class and ideology as key concepts, Michael Ornstein and Michael Stevenson examine this transition in terms of the nature of hegemony and hegemonic crisis and the conditions of political order and instability. These concepts guide the interpretation of three large surveys of representative samples of the Canadian public.

and two unique elite surveys conducted between 1975 and 1981 The surveys cover an exceptionally broad spectrum of political issues including social programs civil and economic rights economic policy foreign ownership labour relations and language issues and sovereignty A wide ranging analysis of public and elite attitudes reveals a hegemonic order through the early 1980s built around public support for the institutions of the Canadian welfare state But there was also widespread public alienation from politics Public opinion was quite strongly linked to class but not to party politics Regional variation in political ideology on a broad range of issues was less pronounced than differences between Quebec and English Canada Much deeper ideological divisions separated the elites with a dramatic polarization between corporate and labour respondents State elites fell between these two though generally more favourable to capital The responses of the business elites reveal the ideological roots of the Mulroney years in support for cuts in social programs free trade privatization and deregulation Social Stratification in Canada Hugh Arthur McRoberts,1977 **Social Stratification [sound**
