can compound and perpetuate people's problems. They suggest that social care organisations need to go beyond operating as aid agencies focusing on the needs of individuals and should increase their development capacity by working with other agencies and citizens to make communities more supportive and inclusive for vulnerable and excluded people.

*Organisations and Management in Social Work* Mark Hughes, Michael Wearing, 2021-11-03 As a social worker you could work in a variety of different organisations each with their own purpose, culture and structure. Understanding and examining the complex issues involved in the management and organisational context of social work practice is crucial for practitioners and managers. This book helps you to develop strategies for ethical, reflective and relational practice. It covers key themes including leadership, supervision, risk and decision making and emphasises the importance of active participation for positive change. Thoroughly updated and with new Practice Examples demonstrating the relationship between theory and practice, this is essential reading for both undergraduate and postgraduate students of social work as well as practising social workers.

**Social Work Practice** Eileen Gambrill, 2012-12-06 The first textbook to emphasize the importance of critical thinking skills to practice, this third edition of the classic *Social Work Practice* retains its unique focus on thinking critically about decisions that social workers make daily. Organized around the phases of helping, this hands-on introduction highlights the decision points that social workers encounter during assessment, intervention and evaluation. Rolf Olsen, 1974

**Radical Social Work** Roy Victor Bailey, Roy Bailey, Mike Brake, 1975 Recession, unemployment, poverty, urban decay, delinquency, vandalism, alienation and inadequacy are everywhere evident in the advanced industrial countries. The role of welfare agencies in ameliorating the less pleasant symptoms of western society is widely recognized as crucial to its preservation. Social workers, the frontline agents of the welfare state, may well find that paradoxically the justification of their profession lies in the maintenance of a social and economic system that is the cause of the ills they are employed to confront and to which their everyday experience renders them fundamentally opposed. These essays are radical because they explore ways in which social ills may be cured rather than concealed. They challenge the relevance and long-term effectiveness of

received ideas in social work and social work education many of which remain rooted in the rapacious benevolence of Victorian philanthropy The authors attempt to formulate codes and practices that may provide more realistic solutions to the problems of the socially unfit At the same time they consider the questions that all social workers whether students or professionals radical or neutral must at some stage ask themselves How far can the needs of the single member be subsumed in the interests of his community How far can the requirements of political organization and conscientization of the oppressed override the immediate need to salve the distress of one family or individual How far can the means be sacrificed to the end     **Proceedings of the National Conference of Social Work at the ... Annual Session Held in ...** ,1920

**Social Work in Community** ,1989     **An Introduction to Social Work Practice in Canada** Shankar A. Yelaja,1985

**The Social Studies in the Elementary and Secondary School** National Society for the Study of Education,Harold Ordway Rugg,1923     **Social Control of the Feeble-minded** Stanley Powell Davies,1923     *Social Work, a Family Builder* Harriet Townsend,1926     **The Annals of the American Academy of Political and Social Science** American Academy of Political and Social Science,1929     Like Our Very Own Julie Berebitsky,2000 A fascinating chapter in American social and cultural history Like Our Very Own offers compelling evidence of the role that adoption has played in our evolving efforts to define the meaning and nature of both motherhood and family BOOK JACKET     **Teaching the Social Studies** Edgar Dawson,1927
