## **Social Work Practice With Groups A Clinical Perspective:**

*Handbook of Social Work with Groups* Charles D. Garvin, Lorraine M. Gutierrez, Maeda J. Galinsky, 2017-02-13 This comprehensive handbook presents major theories of social work practice with groups and explores contemporary issues in designing and evaluating interventions. Students and practitioners gain an in-depth view of the many ways that groups are used to help people address personal problems, cope with disabilities, strengthen families, and communities resolve conflict, achieve social change, and more. Offering authoritative coverage of theoretical, practical, and methodological concerns coupled with a clear focus on empowerment and diversity, this is an outstanding text for group work and direct practice courses.

Case-Based Learning for Group Intervention in Social Work Jacqueline Corcoran, 2020 Case Based Learning for Group Intervention in Social Work provides essential information on planning and facilitating groups in a clear and easy-to-understand format. To develop student competency, the volume uses a contemporary pedagogy: case-based learning as a teaching tool for analysis, application, and decision making. By working through cases, students gain exposure to the considerable range of populations that can be served by social work group intervention. Chapters 1-7: The Practice of Generalist Social Work Marla Berg-Weger, Julie Birkenmaier, 2017-05-25 The fourth edition of *The Practice of Generalist Social Work* continues to teach students to apply micro, macro, and mezzo social work skills. This new edition strengthens the connection between the three levels of practice and is fully updated to the 2015 EPAS. This edition also contains more illustrations of theory and more context for deciding which type of intervention is a good fit. Most chapters now open with a case study and continually refer back to the case to provide additional connections between theory and real-life practice. Each chapter also incorporates a link to a Grand Challenge of Social Work from the American Academy of Social Work and Social Welfare, which shows the connection between social work and the most significant societal challenges of today. The Quick Guides within the text offer students guidance for their field experience and practice after graduation. The text also comes with a rich companion website that includes support materials and six unique cases that encourage students to learn by doing. Go to [www.routledgesw.com](http://www.routledgesw.com) to explore the cases and additional resources. **A Guide to Evidence-Based Group Work** Mark J. Macgowan, 2008-02-12 This is the first textbook that illustrates step by step how to practice evidence-based group work. As group workers are increasingly being held accountable to evaluate, monitor, and improve their practice, there are scant resources available that apply specifically to their practice. General books on evidence-based practice lack the rich material on group work organized for the first time in this one volume. Designed specifically as a supplement for undergraduate and graduate group work courses, the text is organized around the process and philosophy of evidence-based practice: formulating appropriate practice questions, searching for evidence, critically reviewing available evidence, applying the evidence with judgment, skill, and concern for the group members, and evaluating the outcomes achieved. The evidence-based group work framework teaches students how to skillfully apply best practices through practical learning activities, case

examples research designs step by step guidelines and checklists assessment tips and detailed instructions for formulating questions and evaluating answers It will be equally valuable as a handy reference for professionals eager to hone their practice skills      *The Practice of Generalist Social Work* Julie Birkenmaier, Marla Berg-Weger, Martha P. Dewees, 2011-04-27 Sufficiently concise to be teachable in a one semester practice course yet available with a treasure trove of related materials for use in a two or three course practice sequence this text helps translate the guiding theoretical perspectives of social justice human rights and critical social construction into purposeful social work practice Three unique cases specially written for this Series provide a learning by doing framework unavailable from any other social work publisher Companion readings and many other resources enable this text to be the centerpiece for three semesters of practice teaching Go to [www.routledgesw.com](http://www.routledgesw.com) to learn more      *Social Work Practice with Groups* Kenneth E. Reid, 1997 This book provides a unique and compassionate perspective on group social work with a focus on clinical settings In an open and user friendly style author Kenneth Reid offers practical day to day strategies to help social workers work with people in small groups in a way that is therapeutic growth producing and life enhancing In addition to integrating small groups theory and therapeutic principles *Social Work Practice with Groups* also offers numerous clinical examples that bring the material alive and into context Notes to Myself vignettes that begin with each chapter and relate the author's experience to the topics in the chapter while they convey a piece of personal and practical wisdom and a focus on the personhood of the group leader which explores how the practitioner's own personality development and life situation are brought into the therapeutic relationship      **Resources in Education**, 1997      **The Routledge International Handbook of Social Work Teaching** Jarosław Przeperski, Rajendra Baikady, 2024-04-09 This handbook is a comprehensive text on social work education based on the narratives of social work educators practitioners and researchers from Asia and the Pacific North and South America Australia and Oceania and Europe It discusses innovations challenges pedagogy and tested methods of social work teaching at various levels of educational programmes The volume Examines key concepts that underpin debates concerning social work teaching research and practice Brings out key concerns debates and narratives concerning various teaching learning and pedagogical methods from different countries Documents principal perspectives of different stakeholders involved in social work education from educators and practitioners to novice social workers The Routledge International Handbook of Social Work Teaching will be an effective instrument in informing policy decisions related to social work teaching and pedagogy at the global and local levels It will be essential for educators researchers and practitioners within social work institutions and for professional associations around the world      **Endings in Clinical Practice** Joseph F. Walsh, 2007 TABLE OF CONTENTS Types of Endings The Importance of Closure Tasks for Ending Reflective Theories Cognitive Behavior Theory Solution Focused and Narrative Theories Family Theory Group Interventions Client Reactions to Endings Practitioner Reactions to Endings Additional Ending Activities      Community Services Intervention Vera Lloyd, 2020-07-16 Community Services

Intervention provides a comprehensive introduction to the theory models and principles of practice for direct social casework. It introduces the history and context of professional practice, provides a step by step guide to the key skills, demonstrates how theory supports intervention processes and outlines how to work with other professionals to assist clients to achieve best possible outcomes. Reflecting the broad spectrum of casework settings and the need to take client diversity into account, it addresses community care for the aged, people with a disability, people with mental health issues, acute health settings, injury management and insurance, correctional services, court systems, child and youth welfare, drug and alcohol work, at risk populations in schools, managed care and employment programs. With case studies, reflective practice questions and templates for reports and assessments, *Community Services Intervention* is an ideal introductory student text. *Foundations of Social Work Practice in the Field of Aging* Roberta Rubin Greene, 2007. The aging of societies is a global phenomenon. In the United States alone, the life expectancy for both men and women will continue to increase over the next few decades and with that, a population explosion of older adults. The dramatic increase in the number and diversity of older adults elevates the visibility of gerontological matters. As a result, social work practice is becoming more multigenerational, thereby demanding social workers, regardless of their professional endeavors, to be equipped with the most innovative theories and practices to serve older adults and their families. This comprehensive text spans the new knowledge and skills required in direct practice areas, group work and macro practice. It also outlines the Geriatric Social Work Competencies as developed by social work educators necessary to serve the older adult population and suggests how these competencies can be integrated into foundation curriculum. Social work educators, students, practitioners, administrators and policymakers will find updated, useful information in this text regarding assessment tools, cultural influences, evidence-based practices, intervention techniques, theoretical examples. Individuals are living longer and healthier lives in part because of the extraordinary growth of biomedical knowledge and public health initiatives. The confluence of the

rapid and large increase of the older population and the exponential increase in the dissemination of knowledge create an imperative for social workers to employ the most recent knowledge in their practice with people living increasingly long lives
