[Nominal and Pronominal Address in Jamaica and Trinidad](#) Matthias Klumm, 2021-09-15 This book examines the various patterns of nominal and pronominal address used in Jamaica and Trinidad the two most populous islands of the English speaking Caribbean Given that the Anglo Caribbean context has so far been largely neglected in address research this study aims to provide an in depth analysis of the linguistic means Jamaicans and Trinidadians have at their disposal and make use of to address each other A particular focus will be on variation in the speakers address behaviour with regard to their sex age social class ethnicity and regional background The study draws both on data from a self

compiled corpus of postcolonial Jamaican and Trinidadian literary works and on questionnaire and interview data collected during fieldwork This book contributes to the ever growing body of research in the field of nominal and pronominal address and will be relevant to researchers interested in the fields of sociolinguistics pragmatics and World Englishes *Poznań Studies in Contemporary Linguistics*, 1999 **It's not all about you** Bettina Kluge, María Irene Moyna, 2019-11-15 The twenty first century has seen a surge in cross linguistic research on forms of address from increasingly diverse and complementary perspectives The present edited collection is the inaugural volume of Topics in Address Research a series that aims to reflect that growing interest The volume includes an overview followed by seventeen chapters organized in five sections covering new methodological and theoretical approaches variation and change address in digital and audiovisual media nominal address and self and third person reference This collection includes work on Cameroonian French Czech Dutch English from the US UK Australia and Canada Finnish Italian Mongolian Palenquero Creole Portuguese Slovak and Spanish in its Peninsular and American varieties By presenting the work in English the book offers a bridge among researchers in different language families It will be of interest to pragmatists sociolinguists typologists and anyone focused on the emergence and evolution of this central aspect of verbal communication

**Bibliographic Guide to Soviet and East European Studies, 1992** G. K. Hall and Co. Staff, 1993-06 *Syntactic Variation and Unconscious Linguistic Change* Nadine Van den Eynden, 1993 By examining adjectival relative clauses in the dialect of Dorset in the Southwest of England this volume illustrates how contemporary British dialects can contribute to our understanding of unconscious linguistic change The analysis which is based upon tape recorded interviews with numerous informants as well as written dialect imitations extracted from a variety of sources shows that dialectal relativization is governed by an intricate network of both linguistic and non linguistic i e regional social stylistic factors The corpus has been incorporated in its entirety and perfectly lends itself for further dialectological research

**Innovation and Continuity in English Studies** Herbert Grabes, 2001 What the contributors to this volume commemorating the 50th anniversary of IAUPE demonstrate is above all the remarkable broadening of the field of English studies over the past few decades New domains of enquiry have been added while the traditional ones are not only still there but have been reinvigorated by new research paradigms The result has been a marked increase in intra disciplinary competition that reflects broader shifts in cultural understanding Although quite a few of the contributions are concerned with precisely this latter dynamic others demonstrate that the detailed working out of more narrowly framed problem areas is crucial if English studies is to meet the challenges of the future **The Year's Work in Modern Language Studies** Peter J. Mayo, Brian Joseph Levy, Stephen Parkinson, John Lindon, David Thorne, David Arthur Wells, 1993 **A Grammar of the Dialect of the Bolton Area** Graham Shorrocks, 1998 **The Dynamics of Speech Production** Stanisław Puppel, 1992

In this volume the question of static phonetic prerequisites to speech production is briefly examined. The central problem of the dynamics of speech production is addressed in Chapter Two. The problem is approached in a hierarchical and multi stage framework. A chapter on spatial features focuses on a less explored aspect of speech production. The closing chapter briefly considers peripheral and central speech deficits since they have an impact on the degree of normalcy of speech production.

*Traditional Dialect in the Modern World* Caroline Macafee, 1994. The methods of sociolinguistics and dialectology are combined in this study of linguistic change and language attitudes in an inner city area of Glasgow. The aim is to give a rounded view of the present state of a traditional dialect of Scots under the pressures of modern life. Vocabulary, morphology and lexical incidence are studied in detail. The interviewees air concerns such as alienation between the generations, linguistic decorum and Scottishness.

*Gowerland and Its Language* Robert J. Penhallurick, 1994. Why is Gower different? The Gower Peninsula, an almost island at the south of Wales, has had an English speaking population for perhaps at least 900 years, which in itself makes it strange in Wales. Where did this English come from? What was it like? And why is it no longer to be heard? Gowerland and its language tells the story of the old Gower English and its speakers for the first time, bringing together all the chief descriptions of a unique dialect. Gowerland and its language is written for linguists and for all those with an interest in the Gower Peninsula.

*Ausgewählte Schriften* Wolfgang Viereck, 2005. For this volume articles are selected that span a period of 32 years. The author treats the following areas: History of Science, English Surnames, American English, Languages in Contact, Language and School, as well as insights into the cultural history of Europe provided by the *Atlas Linguarum Europae*.
