Economic and Business issues in Retrospect and prospect Kerem Gökten, Ahmet Arif Eren, 2019-03-10 There is a strong view that economics is the academic discipline that best represents the claim of positive science among social sciences Economics has undergone significant transformations after its emergence as a science Despite all these transformations the feature containing positive and normative elements has not changed While economists from the political economy tradition focus on qualitative studies that relate to other social sciences especially political science and history a group of economists adopt the qualitative methods of natural sciences to analyze economic problems There is a debate among economists on how to understand social reality and what kind of science the economy should be Business is a discipline that has declared its relative independence from economics over time Business is a research field that encompasses a wide range of areas ranging from organizational behavior of individuals to the firm's production and marketing strategies This book contains articles on essential topics related to these disciplines which have an inseparable relationship between them Academicians contributing to the book have produced works on current topics of discussion as well as key subjects that remain important in economics and management

The New Mainstream Guy Garcia, 2005-10-18 An economic revolution is transforming America the New Mainstream In this groundbreaking book Guy Garcia explains how Americans will eat work play learn and spend money in the twenty first century and why any organization that ignores the lessons of the New Mainstream is doomed to fail Led by the growing statistical and buying power of blacks Latinos and Asians the New Mainstream is a loose coalition of minorities who have been forced to forge their own identity in American culture even as they use and consume goods and services targeted to the general public This shift in consumer buying power is not only transforming how products are developed marketed and bought it also illustrates that diversity is the driving force of American capitalism As Garcia shows The New Mainstream is both a wake up call and a road map to this new economic reality
