The Story of America Hendrik Willem Van Loon,2023-05-09 In this new enlarged and up to date work we have the greatest book that Dr van Loon has yet written greater than The Story of Mankind because its subject did not require the compression that the first book did no less incisive yet more mellow in that the years have tempered van Loon s tendency to iconoclasm more thrilling in that there is a more unified story to tell The numerous illustrations are as fine as imaginative and as distinctive as anything he has heretofore drawn and the reception accorded The Story of Mankind which headed the list of best sellers for years on end

[The Story of America : Beginnings to 1877: Volume 1](#) John Arthur Garraty,1992 The Story of America tells our story because it is important in itself It is a great epic and the unique tale of how hundreds of millions of people took possession of a vast continent often at the expense of the original inhabitants The Story of America contains many original documents and lengthy excerpts from primary and secondary sources These include eyewitness accounts poems song lyrics diary entries and excerpts from a variety of other sources

The True Story of the United States of America Elbridge S. Brooks, 2015-07-23 Excerpt from The True Story of the United States of America Told for Young People The story of the United States of America has already been told and re told for young Americans by competent writers and yet there is room for another re telling To avoid as far as possible the dreary array of dates and the dull succession of events that may comprise the history hut do not tell the story to awaken an interest in motives as well as persons in principles rather than in battles in the patriotism and manliness that make a people rather than in the simply personal qualities that make the leader or the individual is the aim of the writer of this latest Story The future of the Republic depends on the upbringing of the boys and girls of to day Any new light on the doings of the boys and girls of America s past when they grew to manhood and womanhood should be of service to the boys and girls of America s to day and to morrow The hope that this volume may help as such a light has inspired its author to write as concisely and as simply as he is able the story of the great Republic s origin development and growth from the far off days of Columbus the discoverer to the nobler times of Washington the defender and Lincoln the savior of America s liberties It has seemed advisable in view of the chain of events that have made the close of the nineteenth century notable years in the

history of the Republic to bring this True Story of the United States as nearly as possible to date and thus include the stirring episode of the war with Spain This new material is here thankfully offered to those young Americans who have by their approval and appreciation made this book so gratifying a success May they live to be old Americans proud of their native land worthy of it and loyal to it as it takes position far in the van among the great nations of the twentieth century About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
