Good Toys, Bad Toys Andrew McClary,2015-02-18 In early America most children had only a few toys and parents received advice from family and friends on the best ways to make and use toys By the early 1900s the Industrial Revolution was producing a new world of toys and giving more parents the wealth to buy them Mass media also sang the praises of these new factory made store bought toys but that began to change as early as the mid 1900s when the mass media was used to inform parents of the many dangers of children s toys Many encourage violence sexism racism and some are actually unsafe and unhealthy The development of children s toys from early America to the present time and the shifting opinions of them expressed by parents and the mass media throughout this time are the main subjects of this book The first section discusses the many problems with toys while the second puts these problems in historical perspective How have these problems changed and are still changing today Might today s toys be about to enter a time when they will be better than ever The third section argues that many media toy watchers are biased toward the negative giving toys more of a black eye than they deserve and considers the challenges that face today s parents as they try to choose the best toys for their children

Television and the Self Kathleen M. Ryan,Deborah A. Macey,2013-04-05 Sitting prominently at the hearth of our homes television serves as a voice of our modern time Given our media saturated society and television s prominent voice and place in the home it is likely we learn about our society and selves through these stories These narratives are not simply entertainment but powerful socializing agents that shape and reflect the world and our role in it Television and the Self Knowledge Identity and Media Representation brings together a diverse group of scholars to investigate the role television plays in shaping our understanding of self and family This edited collection s rich and diverse research demonstrates how television plays an

important role in negotiating self and goes far beyond the treacly very special episodes found in family sit coms in the 1980s. Instead the authors show how television reflects our reality and helps us to sort out what it means to be a twenty first century man or woman. *Journal of Reading* ,1975 Catalog of Copyright Entries, Third Series ,1961 *Catalog of Copyright Entries* Library of Congress.
