Feature Films on 8mm and 16mm James L. Limbacher, 1977 Society and the Environment Michael Carolan, 2018-05-15 Society and the Environment examines today's environmental controversies within a socio organizational context After outlining the contours of pragmatic environmentalism Carolan considers the pressures that exist where ecology and society collide such as population growth and its associated increased demands for food and energy He also investigates how various ecological issues such as climate change are affecting our very own personal health Finally he drills into the social structural dynamics including political economy and the international legal system that create ongoing momentum for environmental ills This interdisciplinary text features a three part structure in each chapter that covers fast facts about the issue at hand examines its wide ranging implications and offers balanced consideration of possible real world solutions New to this edition are Movement Matters boxes which showcase grassroots movements that have affected legislation Discussion questions and key terms enhance the text's usefulness making Society and the Environment the perfect learning tool for courses on environmental sociology A Catalogue of the Library of the Morse Institute, Natick, Mass Morse Institute, Natick, Mass. Recovering Inequality Steve Kroll-Smith, 2018-08-15 A lethal mix of natural disaster dangerously flawed construction and reckless human actions devastated San Francisco in 1906 and New Orleans in 2005 Eighty percent of the built environments of both cities were destroyed in the catastrophes and the poor the elderly and the medically infirm were disproportionately among the thousands who perished These striking similarities in the impacts of cataclysms separated by a century impelled Steve Kroll Smith to look for commonalities in how the cities recovered from disaster In Recovering Inequality he builds a convincing case that disaster recovery and the reestablishment of social and economic inequality are inseparable Kroll Smith demonstrates that disaster and recovery in New Orleans and San Francisco followed a similar pattern In the immediate aftermath of the flooding and the firestorm social boundaries were disordered and the communities came together in expressions of unity and support But these were quickly replaced by other narratives and actions including the depiction of the poor as looters uneven access to disaster assistance and successful efforts by the powerful to take valuable urban real estate from vulnerable people Kroll Smith concludes that inexorable market forces ensured that recovery efforts in both cities would reestablish the patterns of inequality that existed before the catastrophes The major difference he finds between the cities is that from a market standpoint New Orleans was expendable while San Francisco rose from the

ashes because it was a hub of commerce Catalogue of Title-entries of Books and Other Articles Entered in the Office of the Librarian of Congress, at Washington, Under the Copyright Law ...
