*Against the Stream* Elizabeth Rundle Charles,1873      **Happy Homes and the Hearts that Make Them** Samuel Smiles,1888      Michael Jackson Shawn Henning,2010-06-17 Shawn Hennings new book is a powerful and overwhelming tribute and legacy to Michael Jackson In one book hes collected love letters reflections eulogies poems essays and drawings from people throughout the world who have a special appreciation for the King of Pop Michael Jackson I was particularly impressed at the diversity of material from so many different countries and cultures all of it heartfelt and illuminating In *We Love You More* we learn about the many different ways that Michael Jackson affected people from all walks of life The participants talk about how Michaels music creativity and pubic example affected their lives and helped them to be better people The contributions are a wonderful cathartic output to help to come to terms with the loss of Michaels huge talent They will not only comfort those who have written them but those who read them People will learn about the experiences they have in common with people throughout the world who followed Michaels career his music his good deeds and the example he set for this generation and generations to come The book will also be of comfort to Michaels own family They will see that the spirit of Michael will continue in people everywhere and in many ways and for many reasons Its also fascinating to learn what people have to say about different songs and what they meant to their lives Im impressed by the diverse elements in the book from eulogies to memories to poems and beautiful drawings and paintings and even photo montages at the end Mr Henning youve done a wonderful service to the Michael Jackson fan community and I commend you Sincerely yours Larry Nimmer      **The Truth about Talent** Jacqueline Davies,Jeremy Kourdi,2010-08-23 Key themes in the book are 1 The need to reevaluate how people contribute and create value in today s economy it is about knowledge innovation and relationships today rather than executive potential tomorrow 2 Challenging the conventional wisdom that talent refers to a special few rather than the vital many Perhaps we don t have enough because we keep looking in the wrong places and doing the wrong things 3 Conditions facing organizations are tough and competitive and markets are turbulent To withstand this we need to build talented organizations and talented individuals 4 Interdependence between people within and across organizations is critical The way that each individual relies on each other and how talent is realised through social and team ties makes a decisive defining difference 5 Individuals control when and who their potential is shared with The idea that an organization can manage talent and potential is an outdated conceit 6 The nature of work itself matters hugely The extent to which it is stimulating and engaging and how people can make the connection with what they do and the wider difference it makes is vital 7 The way talent is generated is affected by the whole ecology of an organization its sense of purpose rituals the behaviour of its leaders how it hires and how it fires people all influence the way talent is generated      *The Famous Boating Party* Kenneth Patchen,1954      **Proceedings of the ...
