Talk Show Selects 1999:

In Their Own Words: Selected Writings by Journalists on Mongolia, 1997-1999 Part 1d David South, Editor-in-Chief, Julie Schneiderman, Research Editor, In their own words compiles by theme the vast number of stories and features by journalists on Mongolia's transition experience from 1997 to 1999. A rich and unusual resource for a developing country, this book offers the reader a one-stop snapshot of how a country handles the wrenching social, political, cultural, economic, and environmental challenges of changing from one political and economic system to another. An excellent resource for scholars of austerity crises and for those seeking understanding on how to plot a path out of an austerity crisis. In particular, the collection of articles and stories show the impact austerity has on people and their lives. Unadorned by backward-looking historical narratives, these are accounts fizzing with the energy of the moment, a first draft of a tough time for most Mongolians. **In**

Their Own Words: Selected Writings by Journalists on Mongolia, 1997-1999 David South, Editor-in-Chief, 2015-02-28 In their own words compiles by theme the vast number of stories and features by journalists on Mongolia's transition experience from 1997 to 1999. Media Jane D. Brown, Jeanne R. Steele, Kim Walsh-Childers, 2001-11-01 This collection explores the sexual content of U.S. mass media and its influence in the lives of adolescents. Contributors address the topic of sexuality broadly, including evidence not only about physical sex acts but also about the role the media play in the development of gender roles, standards of beauty, courtship, and relationship norms. Chapters included here present new perspectives on what teens are paying attention to in the media and offer insight into how teens are understanding and applying what the media present about sex and sexuality. Employing various methodological approaches, the studies also represent a diversity of adolescent audiences and deal with a wide variety of media content ranging from teens' favorite TV programs to magazines, movies, music, and teen girls' Web pages. Taken as a whole, this volume highlights the significant roles the media play in adolescents' sexual lives. **Sexual Teens, Sexual Media** contributes important evidence to the ongoing debate over media effects, making it essential reading for scholars and students in media studies as well as social and developmental psychology. **Handbook for Conducting Research on Human Sexuality** Michael W. Wiederman, Bernard E. Whitley, Jr., 2012-12-06 Human sexuality researchers often find themselves faced with questions that entail conceptual, methodological, or ethical issues for which their professional training or prior experience may not have prepared them. The goal of this handbook is to provide that guidance.

to students and professionals interested in the empirical study of human sexuality from behavioral and social scientific perspectives It provides practical and concrete advice about conducting human sexuality research and addresses issues inherent to both general social scientific and specific human sexuality research This comprehensive resource offers a unique multidisciplinary examination of the specific methodological issues inherent in conducting human sexuality research The methodological techniques and advances that are familiar to researchers trained in one discipline are often unfamiliar to researchers from other disciplines This book is intended to help enrich the communication between the various disciplines involved in human sexuality research Each of the 21 self standing chapters provides an expert overview of a particular area of research methodology from a variety of academic disciplines It addresses those issues unique to human sexuality research such as how to measure sexuality variables how to design studies recruit participants and collect data how to consider cultural and ethical issues and how to perform and interpret statistical analyses This book is intended as a reference tool for researchers and students interested in human sexuality from a variety of disciplines including psychology sociology family science health communication nursing medicine and anthropology
