About the Mathematics in This Unit

Benchmarks/Goals	Examples
Represent and solve addition problems within 10.	<p>How many counters should Mia take?</p>  $\underline{3} + \underline{4} = 7$ <p>Jack had 6 blocks. Carmen gave him 2 more. How many blocks did Jack have then?</p> 
Decompose a number into two addends in more than one way.	<p>I have 6 crayons in all. Some are red and some are blue. How many of each could I have? How many blues? How many reds?</p>  <p>4 blue 2 red 1 blue 5 red</p>

In our math class, students engage in math problems and activities and discuss the underlying concepts. They are asked to share their reasoning and solutions. It is important that children solve math problems accurately in ways that make sense to them. At home, encourage your child to explain his or her math thinking to you.

In the coming weeks, you will receive information about activities to do at home.
