## **True Stories of Crime in Modern Mexico**

Robert Buffington, Pablo Piccato, 2011-04-21 Crime has played a complicated role in the history of human social relations Public narratives about murders insanity kidnappings assassinations and infanticide attempt to make sense of the social economic and cultural realities of ordinary people at different periods in history Such stories also shape the ways historians write about society and offer valuable insight into aspects of life that more conventional accounts have neglected misunderstood or ignored altogether This edited volume focuses on Mexico s social and cultural history through the lens of celebrated cases of social deviance from the late nineteenth and early twentieth centuries Each essay centers on a different crime story and explores the documentary record of each case in order to reconstruct the ways in which they helped shape Mexican society s views of itself and of its criminals

*Defective Inspectors: Crime-fiction Pastiche in Late*

*Twentieth-century French Literature* Simon Kemp, 2017-07-05 Crime fiction is a popular target for literary pastiche in France

From the nouveau roman and the Oulipo group to the current avant garde writers have seized on the genre to exploit it for

their own ends toying with its traditional plots and characters and exploring its preoccupations with perception, reason and truth. In the first full length study of the phenomenon, Simon Kemp's investigation centres on four major writers of the twentieth century: Alain Robbe-Grillet b. 1922, Michel Butor b. 1926, Georges Perec 1936-82 and Jean Echenoz b. 1947. Out of their varied encounters with the genre, from deconstruction of the classic detective story to homage to the roman noir, Kemp elucidates the complex relationship between the pasticheur and his target, which demands an entirely new assessment of pastiche as a literary form. **The Queries Magazine**, 1890 *Dining Room Detectives* Silvia Bauckova, 2015-09-04. In the structuralist understanding as proposed by John G. Cawelti, a classical detective novel is defined as a formula which contains prescribed elements and develops in a predefined ritualistic manner. When described in this way, the crime fiction formula very closely resembles a recipe: when one cooks, they also add prescribed ingredients in a predefined way in order to produce the final dish. This surprising parallel serves as the starting point for this book's analysis of classical detective novels by Agatha Christie. Here, a structuralist approach to Golden Age crime fiction is complemented by methodology developed in the field of food studies in order to demonstrate the twofold role that food plays in Christie's novels: namely, its function as an element of the formula, a literary device, but also as a cultural sign. Christie employed food on various different levels of her stories in order to portray characters, construct plots and depict settings. What is more, incorporating domesticity and food in her novels helped her fundamentally alter the rigid conventions of the crime fiction genre as it developed in the nineteenth century and enabled her to successfully introduce the character of the female detective and to feminise the detective novel as such. Channeling Violence James T. Hamilton, 2021-04-13. If it bleeds, it leads. The phrase captures television news directors' famed preference for opening newscasts with the most violent stories they can find. And what is true for news is often true for entertainment programming, where violence is used as a product to attract both viewers and sponsors. In this book, James Hamilton presents the first major theoretical and empirical examination of the market for television violence. Hamilton approaches television violence in the same way that other economists approach the problem of pollution: that is, as an example of market failure. He argues that television violence, like pollution, generates negative externalities defined as costs borne by others than those involved in the production activity. Broadcasters seeking to attract viewers may not fully bear the costs to society of their violent programming if those costs include such factors as increased levels of aggression and crime in society. Hamilton goes on to say that the comparison to pollution remains relevant when considering how to deal with the problem. Approaches devised to control violent programming, such as restricting it to certain times and rating programs according to the violence they contain, have parallels in zoning and education policies designed to protect the environment. Hamilton examines in detail the microstructure of incentives that operate at every level of television broadcasting, from programming and advertising to viewer behavior, so that remedies can be devised to reduce violent programming without restricting broadcasters' right to compete. **The Texas Criminal Reports** Texas.
