*Israel, A Different Version*  
Eljay King,2008-04 Have you ever wondered what the future holds for the United States and also for Israel. Surely a righteous God will not allow this country to continue in the downward spiral that is prevalent now. The bible gives a good foretelling of the events that await both of these countries. But there are so many different verses to contend with and they are scattered all through the bible. Also there are so many different speakers who give an intelligent guess of what these events predict. I just don't understand. They all cannot be correct. Question if THE WHOLE HOUSE OF ISRAEL will return how will the people know that they are members. How will Israel feed the whole world. Will the sicknesses that the whole world is experiencing at this time ever be cured. How will the false messiah fool so many people into accepting him as a god. In 1953 I started listening to different preacher on the radio. Those messages on Israel seemed to have more guessing of future events than fact. The messages also changed with the preacher. In 1986 I started reading the bible and making notes of the verses that referred to Israel in the latter days. I ended up with ten pages front and back of scripture verses. I bought my first computer with an orange screen and started compiling and writing. In 1993 I sent a copy to a publisher but never heard anything back. My time for studying ceased due to my outside workload. My house burned in 2001 with a complete loss of everything including my orange computer. I started reading and compiling notes again. The book that you are reading is the end results of the four following years.

**Ellipsis and Nonsentential Speech** Reinaldo Elugardo,Robert J. Stainton,2005-08-26 The papers in this volume address two main topics. Q1 What is the nature and especially the scope of ellipsis in natural language. Q2 What are the linguistic philosophical implications of what one takes the nature scope of ellipsis to be. As will emerge below each of these

main topics includes a large sub part that deals specifically with nonsentential speech Within the first main topic Q1 there arises the sub issue of whether nonsentential speech falls within the scope of ellipsis or not within the second main topic Q2 there arises the sub issue of what linguistic philosophical implications follow if nonsentential speech does not count as ellipsis

I THE NATURE AND SCOPE OF ELLIPSIS A General Issue How Many Natural Kinds There are many things to which the label ellipsis can be readily applied But it's quite unclear whether all of them belong in a single natural kind To explain consider a view assumed in Stainton 2000 Stainton 2004a and elsewhere It is the view that there are fundamentally at least three very different things that readily get called ellipsis each belonging to a distinct kind First there is the very broad phenomenon of a speaker omitting information which the hearer is expected to make use of in interpreting an utterance Included therein possibly as a special case is the use of an abbreviated form of speech when one could have used a more explicit expression See Neale 2000 and Sellars 1954 for more on this idea
