The Absolute:

Challenging the Absolute Simon F. Oliai, 2014-12-30 Our contemporary world presents a seemingly inexplicable paradox It is a world where interaction among societies of different cultural traditions has never been easier A world in which modern technology has visibly overcome the physical barriers that had long condemned the majority of men to relative isolation from one another Yet our world is also one in which the illusion of a lost original cultural or religious identity grounded by a metaphysical absolute pits men against one another A physically more accessible world has thus become an increasingly fundamentalist one In this book written in the wake of such influential European thinkers as Nietzsche Heidegger Foucault Derrida and Vattimo Simon Oliai analyzes the conceptual underpinnings of this paradox and argues that unless the European affirmation of man's finite existence becomes universal we shall never rid ourselves to echo Nietzsche of the repressive shadow of a long dead metaphysical idol

Search for the Absolute Truth , Metamorphoses of the Absolute Otto Neumaier, Daina Teters, 2019-01-10 This collection of essays is devoted to the diversity of the conceptual and terminological definitions of the notion of the absolute Absolute comprises both the concepts of the Western world related to God and the verbal constructions flowing from these ideas in the spheres of law philosophy linguistics politics medicine literature and arts Over time absolute and its neologisms have undergone various modifications assuming the associated characteristics of syntactic ambiguity and inflation Absolute can imply an increase in the degree of a quality attached to some object or phenomenon and can be used as either an adverbial modifier or a proper noun In its appearances as a procedural term absolute mostly conveys a negative connotation when evaluating some action The question posed in this book is not what absolute is but what possibilities exist with regard to perceiving and conceptualizing it in human terms both historically and in the present

The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is an exceptional and thrilling novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
