Skylark The Life Lies And Inventions Of Harry Atwood:

Skylark Howard Mansfield,1999 The biography of one of the great pioneers in American aviation chasing the dream of flight

Sovereign Skies Sean Seyer,2021-03-23 A pathbreaking history of the regulatory foundations of America's twentieth century aerial preeminence Today the federal government possesses unparalleled authority over the atmosphere of the United States Yet when the Wright Brothers inaugurated the air age on December 17 1903 the sky was an unregulated frontier As increasing numbers of aircraft threatened public safety in subsequent decades and World War I accentuated national security concerns about aviation the need for government intervention became increasingly apparent But where did authority over the airplane reside within America's federalist system And what should US policy look like for a device that could readily travel over physical barriers and political borders In *Sovereign Skies* Sean Seyer provides a radically new understanding of the origins of American aviation policy in the first decades of the twentieth century Drawing on the concept of mental models from cognitive science regime theory from political science and extensive archival sources Seyer situates the development spread and institutionalization of a distinct American regulatory idea within its proper international context He illustrates how a relatively small group of bureaucrats military officers industry leaders and engineers drew upon previous regulatory schemes and international principles in their struggle to define government's relationship to the airplane In so doing he challenges the current domestic centered narrative within the literature and delineates the central role of the airplane in the reinterpretation of federal power under the commerce clause By placing the origins of aviation policy within a broader transnational context *Sovereign Skies* highlights the influence of global regimes on US policy and demonstrates the need for continued engagement in world affairs Filling a major gap in the historiography of aviation it will be of interest to readers of aviation diplomatic and legal history as well as regulatory policy and American political development **William Howard Taft and the First Motoring Presidency, 1909-1913** Michael L. Bromley,2007-01-09 William Howard Taft declared I am sure the automobile coming in as a toy of the wealthier class is going to prove the most useful of them all to all classes rich and poor Unlike his predecessors who made public their disdain for the automobile Taft saw the automobile industry as a great source of wealth for this country The first president to acquire a car in office Congress granted him three automobiles Taft is responsible for there being a White House garage in 1909 This is a meticulously researched reappraisal of the oft maligned Taft presidency focusing particularly on his cars his relationship to the automobile and the role of the automobile in the politics of his day Appendices provide information on the White House garage and stable Taft's speech to the Automobile Club of America and a glossary of terms and names The Same Ax, Twice Howard Mansfield,2001-06 A wide ranging inquiry into the nature and possibility of restoration **NASA's Contributions to Aeronautics: Flight environment, operations, flight testing, and research** ,2010 Two volume collection of case studies on aspects of NACA NASA research by noted engineers airmen historians museum curators journalists and independent scholars Explores various

Roach,2014-01-21 Fresh from successful flights before royalty in Europe and soon after thrilling hundreds of thousands of people by flying around the Statue of Liberty in the fall of 1909 Wilbur and Orville Wright decided the time was right to begin manufacturing their airplanes for sale Backed by Wall Street tycoons including August Belmont Cornelius Vanderbilt III and Andrew Freedman the brothers formed the Wright Company The Wright Company trained hundreds of early aviators at its flight schools including Roy Brown the Canadian pilot credited with shooting down Manfred von Richtofen the Red Baron during the First World War and Hap Arnold the commander of the U S Army Air Forces during the Second World War Pilots with the company s exhibition department thrilled crowds at events from Winnipeg to Boston Corpus Christi to Colorado Springs Cal Rodgers flew a Wright Company airplane in pursuit of the 50 000 Hearst Aviation Prize in 1911 But all was not well in Dayton a city that hummed with industry producing cash registers railroad cars and many other products The brothers found it hard to transition from running their own bicycle business to being corporate executives responsible for other people s money Their dogged pursuit of enforcement of their 1906 patent especially against Glenn Curtiss and his company helped hold back the development of the U S aviation industry When Orville Wright sold the company in 1915 more than three years after his brother s death he was a comfortable man but his company had built only 120 airplanes at its Dayton factory and Wright Company products were not in the U S arsenal as war continued in Europe Edward Roach provides a fascinating window into the legendary Wright Company its place in Dayton its management struggles and its effects on early U S aviation **Writers Directory M-Z** Miranda Herbert Ferrara,2004-06 This comprehensive resource features up to date bibliographical biographical and contact information for approximately 20 000 living authors worldwide who have at least one English publication Entries typically include name pseudonyms addresses citizenship birth date specialization career information and a bibliography Contact information includes e mail addresses where available **First to Fly** Thomas C.
