Hudson, 1996 The romances gathered in this volume are Sir Isumbras Octavian Sir Eglamour of Artois and Sir Tryamour These are all important works in a major literary development of the fourteenth century the flourishing of the Middle English popular romance They all contain the basic elements of the Constance Eustace legend the separation and reunion of a family accompanied by a fall and rise in social and or spiritual status

**Friendship and Love in the Middle English Metrical Romances** Anna Hubertine Reuters, 1991 Friendship and Love in the Middle English Metrical Romances groups together a representative cross section of the genre according to variants of love relationships and to ideas of friendship The horizontal and the vertical structure of the relationship are tripartite The horizontal stages are attraction separation testing trial and reunion the vertical spheres are the personal social political and religious All relationships fall into two types the restorative concordant and the innovative discordant These are defined by the relative position of the partners in the social political sphere of their relationship The groups of relationship are defined by the initially more active partner forward heroine fairy mistress forward hero mutual love married love friendship lords and retainers Surveys of the Insular understanding of courtly love and of Caxton s prose romances complement the findings *THE HISTORICAL KNIGHT IN THE MIDDLE ENGLISH ROMANCES*. Barefield, 2003 This reading of canonical texts of medieval English literature Sir Gawain and the Green Knight and Chaucer s Man of Law s Tale alongside Geoffrey of Monmouth s Historia regum Britanniae and other Anglo Norman and English chronicles offers a broader context for reading the romance narratives and re evaluates romance conventions in light of the genealogical priorities of these chronicles By arguing that maternity is featured as a position of power Gender and History in Medieval English Romance and Chronicle adds to our understanding of women and sovereignty and the ways gender and authority were rhetorically linked to medieval texts

### **Stylistic and Narrative Structures in the Middle English Romances** Susan Wittig Albert,1978

This volume provides a generic description based on a formal analysis of narrative structures of the Middle English noncyclic verse romances As a group these poems have long resisted generic definition and are traditionally considered to be a conglomerate of unrelated tales held together in a historical matrix of similar themes and characters As single narratives they are thought of as random collections of events loosely structured in chronological succession Susan Wittig however offers evidence that the romances are carefully ordered although not always consciously so according to a series of formulaic patterns and that their structures serve as vehicles for certain essential cultural patterns and are important to the preservation of some community held beliefs The analysis begins on a stylistic level and the same theoretical principles applied to the linguistic formulas of the poems also serve as a model for the study of narrative structures The author finds that there are laws that govern the creation selection and arrangement of narrative materials in the romance genre and that act to restrict innovation and control the narrative form The reasons for this strict control are to be found in the functional relationship of the genre to the culture that produced it The deep structure of the romance is viewed as a problem solving pattern that enables the community to mediate important contradictions within its social economic and mythic structures Wittig speculates that these contradictions may lie in the social structures of kinship and marriage and that they have been restructured in the narratives in a practical myth the concept of power gained through the marriage alliance and the reconciliation of the contradictory notions of marriage for power's sake and marriage for love's sake This advanced thorough and completely original study will be valuable to medieval specialists classicists linguists folklorists and Biblical scholars working in oral formulaic narrative structure
