Skilled Labourer:

Labour Relations in the Motor Industry H. A. Turner, Garfield Clack, Geoffrey Roberts, 2017-07-06 This book originally published in 1967 takes the automobile industry experience as a basis for a wider view of industrial relations trends and developments of the 1950s and 60s. The study also analyses the emergence of new institutions and systems of labour management relationships. It contains chapters on the effects of automation and technical change on the impact of fluctuations in the market for cars and on wage trends. There are detailed surveys of some of the biggest post-war disputes and especially of trade union organization, the shop steward system, the experience of individual firms such as Austin, Ford and Fiat. There is also a comparative survey of labour relationships in other major car manufacturing countries such as the USA, Germany and Japan.

Urban Daily Labour Markets in Gujarat, Western India Kanchan Bharati, Lancy Lobo, Dhananjay Kumar, 2023-07-07 This volume explores one of the most complex labour landscapes of India, the urban daily labour market. These markets form an important sector of the urban informal labour market and contribute significantly to the Indian economy. This book presents an empirical comparative picture of daily labour markets in Gujarat, Western India. These markets consist mostly of intra-state and interstate migrant workers who suffer from layered multiple marginalities based on markers of informality, migrant status, caste, ethnicity, gender, and poor agency, and often live in the peripheries of the cities without any rights and entitlements to their spaces and services. This study, based on an extensive survey of three cities in Gujarat, contains descriptions and analyses of the places of migration and their causes as well as the working and living conditions of the workers along with their spending patterns on food, health, education, and leisure. It mirrors the work-life and issues of these workers on the regional level while contributing to a better understanding for future policy interventions. An in-depth study, the book will be of interest to students and researchers of labour economics, labour studies, urban planning, social work, sociology, anthropology, and demography. It will also be useful to NGOs, trade unions working with migrant workers, civil servants in Labour department and other related departments, city planners, and policy makers.
