[The Mathematics of the Breath and the Way](#) Charles Bukowski, 2018-09-06 In *The Mathematics of the Breath and the Way*, Charles Bukowski considers the art of writing and the art of living as writer. Bringing together a variety of previously uncollected stories, columns, reviews, introductions, and interviews, this book finds him approaching the dynamics of his chosen profession with cynical aplomb, deflating pretensions and tearing down idols armed with only a typewriter and a bottle of beer. Beginning with the title piece, a serious manifesto disguised as off-handed remarks en route to the racetrack, *The Mathematics of the Breath and the Way* runs through numerous tales following the author's adventures at poetry readings, parties, film sets, and bars, and features an unprecedented gathering of Bukowski's singular literary criticism. The book closes with a handful of interviews in which he discusses his writing practices and his influences, making this a perfect guide to the man behind the myth and the disciplined artist behind the boozing brawler.
