The Spiritual Meaning of the Sixties Tobias Churton,2018-11-27 Unveils the spiritual meaning that fueled the artistic political and social revolutions of the 1960s Investigates the spiritual principles that informed everything from the civil rights and anti war movements to the hippies rejection of materialist culture to the rise of feminism gay rights and environmentalism Reveals how medieval troubadours Gnosticism Renaissance hermetic magic and the occult doctrines of Aleister Crowley helped shape the psychedelic Sixties Offers in depth analysis of many of the era s most famous books films and music No decade in modern history has generated more controversy and divisiveness than the tumultuous 1960s For some the 60s were an era of free love drugs and social revolution For others the Sixties were an ungodly rejection of all that was good and holy Embarking on a profound search for the spiritual meaning behind the massive social upheavals of the 1960s Tobias Churton turns a kaleidoscopic lens on religious and esoteric history industry science philosophy art and social revolution to identify the meaning behind all these diverse movements Engaging with views of mainstream historians some of whom write off this pivotal decade as heralding an overall decline in moral values and respect for tradition Churton examines the intricate network of spiritual forces at play in the era He reveals spiritual principles that united the free love movement the civil rights and anti war movements the hippies rejection of materialist culture and the eventual rise of feminism gay rights and environmentalism He traces influences from medieval troubadours Gnosticism Hindu philosophy Renaissance hermetic magic and the occult doctrines of Aleister Crowley He also examines the psychedelic revolution the genesis of popular interest in UFOs and the psychological consequences of the Bomb and the assassinations of the Kennedys and Martin Luther King In addition Churton investigates the huge shifts in consciousness reflected in the movies music art and literature of the era from Frank Sinatra to the Beatles from I Love Lucy to Star Trek from John Wayne to Midnight Cowboy much of which still resonates with the youth of today Taking the reader on a long strange trip from crew cuts and Bermuda shorts to Hair and Woodstock from liquor to psychedelics from uncool to cool and from matter to Soul Churton shows how the spiritual values of the Sixties are now reemerging with an astonishing influx of spiritual light to once again

Beatlefans , **The Words and Music of John Lennon** Ben Urish,Kenneth G. Bielen,2007-06-30 Despite John Lennon s immense popularity little attention has been paid to his work apart from the Beatles Yet his solo artistry not only illuminates what he gave to the Beatles but also constitutes a significant contribution to popular music in general Lennon was able to fuse experiments in technology instrumentation lyrics and musical form into recordings that were both artistically and commercially successful Few singer songwriters have been his equal In this long overdue investigation authors Ben Urish

and Ken Bielen give Lennon's artistry the opportunity to speak for itself. After a brief biographical introduction chronologically arranged chapters discuss his incredible body of work album by album and single by single. A discography and annotated bibliography conclude the book. Despite John Lennon's immense popularity little attention has been paid to the overall efforts of his work apart from the Beatles. Yet his solo artistry not only illuminates what he gave to the Beatles and what the Beatles experience gave to him but also constitutes a significant contribution to popular music in general. Lennon was able to fuse experiments in technology instrumentation lyrics and musical form into recordings that were both artistically and commercially successful. Whether expressing emotions explaining philosophies protesting social situations or ruminating on the joys and pains of personal entanglements few singer-songwriters have been his equal. In this long overdue investigation authors Ben Urich and Ken Bielen give Lennon's artistry the opportunity to speak for itself. After a brief biographical introduction chronologically arranged chapters discuss his incredible body of work album by album and single by single. A discography and annotated bibliography conclude the book. Although he is often lauded as a spokesperson for his generation this praise however intended is far too limiting. Lennon was able to transform the intensely personal into the deeply universal as well as the reverse often with humor and pointed insight. At their core his songs are simultaneously humanistic and transcendent. And as such they and he continue to be relevant and will certainly remain a valuable part of our cultural heritage for a long time to come.
