## **Slave Cultures And The Cultures Of Slavery:**

**Slave Cultures and the Cultures of Slavery** Stephan Palmié, 1995 Historians and anthropologists focus on the cultural dimensions of slavery in various geographical and historical settings. They deal with conceptual and theoretical problems in current slavery studies as well as issues including Native American slaveholding, the integration of former slaves into West African societies, slave life on Caribbean sugar plantations, slave cultures in Suriname, female slave owners on the Gold Coast, and Maroon communities. Annotation copyright by Book News Inc Portland OR [Slave Culture : Nationalist Theory and the Foundations of Black America](#) Sterling Stuckey Professor of History Northwestern University, 1987-04-23 How were blacks in American slavery formed out of a multiplicity of African ethnic peoples into a single people? In this major study of Afro-American culture, Sterling Stuckey, a leading thinker on black nationalism for the past twenty years, explains how different African peoples interacted during the nineteenth century to achieve a common culture. He finds that at the time of emancipation, slaves were still overwhelmingly African in culture, a conclusion with profound implications for theories of black liberation and for the future of race relations in America. By examining anthropological evidence about Central and West African cultural traditions (Bakongo, Ibo, Dahomean, Mendi, and others) and exploring the folklore of the American slave, Stuckey has arrived at an important new cross-cultural analysis of the Pan African impulse among slaves that contributed to the formation of a black ethos. He establishes, for example, the centrality of an ancient African ritual, the Ring Shout or Circle Dance, to the black American religious and artistic experience. Black nationalist theories, the author points out, are those most in tune with the implication of an African presence in America during and since slavery. Casting a fresh new light on these ideas, Stuckey provides us with fascinating profiles of such nineteenth-century figures as David Walker, Henry Highland Garnet, and Frederick Douglass. He then considers in detail the lives and careers of W. E. B. Dubois and Paul Robeson in this century, describing their ambition that blacks in American society, while struggling to end racism, take on roles that truly reflected their African heritage. These concepts of black liberation, Stuckey suggests, are far more relevant to the intrinsic values of black people than integrationist thought on race relations. But in a final revelation, he concludes that, with the exception of Paul Robeson, the ironic tendency of black nationalists has been to underestimate the depths of African culture in black Americans and the sophistication of the slave community they arose from. Coyle, Richard J. Ellis, 2019-06-04 This new set of original case studies is designed to offer an empirical counterpart to Cultural Theory (Westview, 1990), the landmark statement of political culture theory authored by Michael Thompson, Richard Ellis, and Aaron Wildavsky, and to extend and challenge the analysis developed there. Here the theoretical concepts laid out in that book—*The Black Ordeal of Slavery and Slave Trading in the French West Indies, 1625-1715: Middle Passage and the plantation economy* Clarence J. Munford, 1991 Together with reflections on the slavery, capitalism

racism causal chain this book reveals the tight bond between the Black West Indies and Africa through analysis of socio political conditions in Africa and of the ethnic origins of diaspora Africans The years from 1625 to 1715 are the time when the scaffolding of the plantation slave economy was erected It triggered the dialectic between the slave mode of extracting surplus labor from captive Africans on the one side and the profit exigencies of nascent capitalism on the other This dialectic made the installation of the capitalist mode of production in the western hemisphere a peculiarly racist phenomenon

**Slaves and Slaveholders in Bermuda, 1616-1782** Virginia Bernhard,1999 Slaves and Slaveholders in Bermuda 1616-1782 offers a fresh perspective on the complex relationship between racism and slavery in the often overlooked second oldest English colony in the New World As the first blacks were brought onto the islands not specifically for slave labor but for their expertise as pearl divers and cultivators of West Indies plants Bermuda s racial history began to unfold much differently from that of the Caribbean islands or of the North American mainland Bermuda s history records the arrival of the first blacks the first English law passed to control the behavior of the Negroes and the creation of ninety nine year indentures for black and Indian servants When the inevitable reality of slavery took hold in Bermuda slaveholders realized that they like their slaves were not free Slavery dictated and strained the relationships between whites and blacks but in this smallest of English colonies it differed from slavery elsewhere because of the uniquely close master slave relations created by Bermuda s size and maritime economy At only twenty one square miles in area Bermuda saw slaves and slaveholders working and living closer together than in other societies The emphasis on maritime pursuits offered slaves a degree of autonomy and a sense of identity unequaled in other English colonies This groundbreaking history of Bermuda s slavery reveals fewer runaways less violent rebellions and relatively milder punishments for offending slaves Bernhard delves into the origins of Bermuda s slavery its peculiar nature and its effects on blacks and whites The study is based on archival research drawn from wills and inventories laws and court cases governors reports and council minutes Intended as an introduction to both the history of the islands and the rich sources for further research this book will prove invaluable to scholars of slavery as well as those interested in historical archaeology anthropology maritime history and colonial history

**African American Environmental Thought** Kimberly K. Smith,2007 Examines the works of Frederick Douglass Booker T Washington W E B Du Bois and several other canonical figures to uncover a rich and vital tradition of black environmental thought from the abolition movement through the Harlem Renaissance Provides the first careful linkage of the early conservation movement to black history the first detailed description of black agrarianism and the first analysis of scientific racism as an environmental theory

**The Problem of Slavery in Western Culture** David Brion Davis,1988 This classic Pulitzer Prize winning book depicts the various ways the Old and the New Worlds responded to the intrinsic contradictions of slavery from antiquity to the early 1770s and considers the religious literary and philosophical justifications and condemnations current in the abolition controversy
