The Slavs in European History and Civilization Francis Dvornik, 1962 A seminar on the history of Slavic politics international relations culture and religion during the 6th through the 19th century     The Slavs in European History and Civilization [franz.]. Francis Dvornik, 1970     The Slavs in European History and Civilization. [With Maps.]. František DVORNÍK, 1962     *The Unknown Europe* James R. Payton, 2021-11-03 The fascinating history of Eastern Europe includes highs of soaring cultural achievement and lows of almost unimaginable repression But we in the West don't know much about Eastern Europe or its history this book helps us see why We got interested when the region became a threat during the Cold War but what we learned focused on the Communist period after World War II not Eastern Europe itself or its deep history a history that continues to live in the hearts of its peoples James Payton offers an accessible treatment of the history of the region an opportunity to learn about Eastern Europeans as they are He overviews that story from pre history to the present examining eleven turning points that profoundly shaped Eastern European history His treatment considers the backgrounds to the turning points the events and the long lasting impacts they had for the various Eastern European nations This helps us understand how Eastern Europeans themselves see their history the long haul over the centuries with the influence and impact of events of the sometimes distant past shaping how they see themselves their neighbors and their place in the world

**Imagology** Manfred Beller, Joseph Theodoor Leerssen, 2007 How do national stereotypes emerge To which extent are they determined by historical or ideological circumstances or else by cultural literary or discursive conventions This first inclusive critical compendium on national characterizations and national cultural or ethnic stereotypes contains 120 articles by 73 contributors Its three parts offer 1 a number of in depth survey articles on ethnic and national images in European literatures and cultures over many centuries 2 an encyclopedic survey of the stereotypes and characterizations traditionally ascribed to various ethnicities and nationalities and 3 a conspectus of relevant concepts in various cultural fields and scholarly disciplines The volume as a whole as well as each of the articles has extensive bibliographies for further critical reading Imagology is intended both for students and for senior scholars facilitating not only a first acquaintance with the historical development typology and poetics of national stereotypes but also a deepening of our understanding and analytical perspective by interdisciplinary and comparative contextualization and extensive cross referencing     **The Routledge**

**History Handbook of Central and Eastern Europe in the Twentieth Century** Włodzimierz Borodziej, Ferenc Laczó, Joachim von Puttkamer, 2020-08-02 *Intellectual Horizons* offers a pioneering transnational and comparative treatment of key thematic areas in the intellectual and cultural history of Central and Eastern Europe in the twentieth century For most of the twentieth century Central and Eastern European ideas and cultures constituted an integral part of wider European trends However the intellectual and cultural history of this diverse region has rarely been incorporated sufficiently into nominally comprehensive histories of Europe This volume redresses this underrepresentation and provides a more balanced

perspective on the recent past of the continent through original critical overviews of themes ranging from the social and conceptual history of intellectuals and histories of political thought and historiography to literary visual and religious cultures to perceptions and representations of the region in the twentieth century While structured thematically individual contributions are organized chronologically They emphasize where relevant generational experiences agendas and accomplishments while taking into account the sharp ruptures that characterize the period The third in a four volume set on Central and Eastern Europe in the twentieth century it is the go to resource for understanding the intellectual and cultural history of this dynamic region     The Early Slavs Paul M. Barford,2001 Well over half of Europe is today inhabited by about 270 million people speaking one of the many Slav languages and dialects Despite this their origin and early development are still poorly understood and they have remained among the most enigmatic problems of European archaeology Alongside major political changes in Eastern Europe important advances have been made in understanding the archaeology and history of its peoples but much of this scholarship has been unavailable in Western Europe This book one of very few in English brings that new evidence to a wider audience     **The Slavs** Francis Dvornik,1956     **An Outline of the Course on Slavic Civilizations** Rado Ludovik Lenček,1978     **Eastern and Western Europe in the Middle Ages** František Graus,Ferdinand Seibt,Karl Bosl,Michael Moissej Postan,Aleksander Gieysztor,1970     The American Bibliography of Slavic and East European Studies ,1988     *Byzantinische Forschungen* John W. Barker,1966 Internationale Zeitschrift f r Byzantinistik     *The Making of Central and Eastern Europe* Francis Dvornik,1974     *East European History* Richard Voyles Burks,1973     *Pioneers of Byzantine Studies in America* John W. Barker,2002     Slavic Americans Joseph Stipanovich,Maria K. Woroby,1977 Both text and study outline accompanied by a bibliography discuss the themes of identity and nationalism in the Slavic American community     Teuton and Slav Hermann Schreiber,1965     Europe: the World of the Middle Ages Edward Peters,1977     **On the Historical Beginnings of Eastern Slavic Europe** Nicholas L. Chirovsky,1976     *Slavic and East European Journal* ,1967
