Sleeping Dreaming And Dying:

Sleeping, Dreaming, and Dying Dalai Lama, 2002-05-01 This is an absorbing account of a dialogue between leading Western scientists and the foremost representative of Buddhism today the Dalai Lama of Tibet For modern science the transitional states of consciousness lie at the forefront of research in many fields For a Buddhist practitioner these same states present crucial opportunities to explore and transform consciousness itself This book is the account of a historic dialogue between leading Western scientists and the Dalai Lama of Tibet Revolving around three key moments of consciousness sleep dreams and death the conversations recorded here are both engrossing and highly readable Whether the topic is lucid dreaming near death experiences or the very structure of consciousness itself the reader is continually surprised and delighted Narrated by Francisco Varela an internationally recognized neuroscientist the book begins with insightful remarks on the notion of personal identity by noted philosopher Charles Taylor author of the acclaimed Sources of Self This sets the stage for Dr Jerome Engel Dr Joyce MacDougal and others to engage in extraordinary exchanges with the Dalai Lama on topics ranging from the neurology of sleep to the yoga of dreams Remarkable convergences between the Western scientific tradition and the Buddhist contemplative sciences are revealed Dr Jayne Gackenbach's discussion of lucid dreaming for example prompts a detailed and fascinating response from the Dalai Lama on the manipulation of dreams by Buddhist meditators The conversations also reveal provocative divergences of opinion as when the Dalai Lama expresses skepticism about Near Death Experiences as presented by Joan Halifax The conversations are engrossing and highly readable Any reader interested in psychology neuroscience Buddhism or the alternative worlds of dreams will surely enjoy Sleeping Dreaming and Dying

Sleeping, Dreaming, and Dying Dalai Lama XIV Bstan-'dzin-rgya-mtsho, 1997 **Living, Dreaming, Dying** Rob Nairn, 2004-08-03 The Tibetan Book of the Dead is one of the best known Tibetan Buddhist texts It is also one of the most difficult texts for Westerners to understand In Living Dreaming Dying Rob Nairn presents the first interpretation of this classic text using a modern Western perspective avoiding arcane religious terminology keeping his explanations grounded in everyday language Nairn explores the concepts used in this highly revered work and brings out their meaning and significance for our daily life He shows readers how the Tibetan Book of the Dead can help us understand life and self as well as the dying process Living Dreaming Dying helps readers to live deliberately and confront death deliberately One thing that prevents us from doing that according to Nairn is our tendency to react fearfully whenever change occurs But if we confront our fear of change and the unknown we can learn to flow gracefully with the unfolding circumstances of life rather than be at their mercy Of course change occurs throughout our life but a period of transition also occurs as we pass from the waking state into sleep and likewise as we pass into death Therefore the author's teachings apply equally to living as well as to dreaming and dying Through meditation instructions and practical exercises the author explains how to Explore the mind through the cultivation of deep meditation states and expanded consciousness Develop
