*Education Systems in Historical, Cultural, and Sociological Perspectives* Daniel Tröhler, Ragnhild Barbu, 2012-03-26 For nearly half a century research on education systems has been increasingly popular However this popularity was long restricted primarily to internationally linked policy makers and education planners often backed up by international organizations such the OECD but also by governmental or para governmental organizations within the individual countries These institutional affiliations provided education research with a specific character that often centres on notions such as excellence efficiency or standards The specific comparative character of this policy driven research agenda triggered the development of suitable research techniques such as comparative statistics and pertinent sub disciplines such as cognitive psychology Backed up by powerful global institutions this agenda purported to be rather unique and it tended to ignore the cultural complexity of the educational field and those research approaches that address this complexity This volume includes different historical cultural and sociological approaches to the education systems and to questions as to how research on education systems can be undertaken beyond the parameters of the existing research agenda They demonstrate how pertinent problems of research on education systems can only be tackled taking an international and interdisciplinary approach with regard to both research questions and methods concerning education systems

**Pitirim A. Sorokin** Barry V. Johnston, 1995 Pitirim A Sorokin 1889 1968 was one of the most original important and controversial figures in American sociology His spectacular rise from a peasant childhood in Czarist Russia to the Olympian heights of Harvard University provides an unlikely and fascinating lens for examining the history of an entire discipline And as Barry Johnston shows his equally dramatic fall from favor and unexpected resurrection illuminate both Sorokin s life and the tempestuous world of academic politics An outspoken revolutionary and secretary to Alexander Kerensky Sorokin was imprisoned and ordered executed by Lenin then reprieved and exiled During the 1920s he flourished as a teacher and scholar at the University of Minnesota where he published several pioneering books on the Russian Revolution social mobility sociological theory and rural sociology Harvard president A Lawrence Lowell was so impressed that he recruited Sorokin to chair the university s first department of sociology From 1930 to 1944 the department prospered under Sorokin s leadership attracting an entire generation of young scholars who in their own right would have a profound impact on the discipline In this period Sorokin published several volumes of his magnum opus *Social and Cultural Dynamics* and became embroiled in a bitter battle with rival Talcott Parsons for control of the department Parsons ultimately deposed Sorokin and transformed sociology into the Department of Social Relations Sorokin nevertheless stayed on at Harvard where he established the Center for Creative Altruism but otherwise continued to work in relative obscurity Finally in 1963 after years in eclipse Sorokin was recognized for his accomplishments when he was elected president of the American Sociological Association During a long and distinguished career Sorokin amassed an amazingly diverse and substantial body of work much of which set the standard for the field At the same time he broke with the conventions of sociology frequently ridiculing and taunting his less adventurous colleagues For his heresy the flamboyant Sorokin was condemned and driven to the periphery of a profession anxious for legitimacy as a science As a result Sorokin s ideas have been consistently ignored and misunderstood for more than a quarter century Based on exhaustive research in Sorokin s papers and the Harvard archives as well as interviews with Sorokin s surviving family members former students and colleagues this biography restores Sorokin to his rightful place in the pantheon of American intellectuals
