**The Birds at My Table** Darryl Jones,2018-03-21 Darryl Jones is fascinated by bird feeders Not the containers supplying food to our winged friends but the people who fill the containers scatter the crumbs or seeds or leave the picnic scraps behind for the birds Here Jones takes us on a wild flight through the history of bird feeding as he ponders this odd but seriously popular form of interaction between humans and wild animals Jones digs at the deeper issues and questions of the practice of bird feeding as he raises our awareness of the things we don t yet know and why we really should This beautifully written and engaging books reveals that what at first seems to be a niche topic humans feeding wild birds is in fact something a disproportionate number of us do Half the citizens of Australia the UK and the US feed birds whether its by planting trees that attract them putting food out on apartment balconies setting up birds baths and feeders or by unwittingly leaving scraps behind in parks The international bird seed industry is huge and most of the seed is grown in
