The Big Picture Of Family Values:

Big Picture Parents Harriet Connor, 2017-01-20 Being a parent in the modern world is tough We are often overwhelmed with fear about damaging our children guilt about our imperfections and confusion about our role Harriet Connor knows these feelings well But hers is not just another parenting book full of shoulds and shouldn'ts to make you feel worse Rather she invites you to step back and consider the bigger picture What is the purpose of life and parenthood What are our human limitations How can we cope with our guilt and fear What are our family's values and how do we pass them on What is our family's structure and place within the wider community When she was desperate for answers Harriet Connor turned to the ancient wisdom of her ancestors the Bible She went looking for little pieces of grandmotherly advice but what she found was a grand vision a big picture that made sense of both life and parenthood Whether you are new to the Bible or have read it before you will not regret taking time to reflect on its message which has given comfort and guidance to generations of parents just like you

The Family Firm Emily Oster, 2021-08-03 The instant New York Times bestseller Emily Oster dives into the data on parenting issues cuts through the clutter and gives families the bottom line to help them make better decisions Good Morning America A targeted mini MBA program designed to help moms and dads establish best practices for day to day operations The Washington Post From the bestselling author of *Expecting Better* Cribsheet and *The Family Firm* the next step in data driven parenting from economist Emily Oster In *The Family Firm* Brown professor of economics and mom of two Emily Oster offers a classic business school framework for data driven parents to think more deliberately about the key issues of the elementary years school health extracurricular activities and more Unlike the hourly challenges of infant parenting the big questions in this age come up less frequently But we live with the consequences of our decisions for much longer What's the right kind of school and at what age should a particular kid start How do you encourage a healthy diet Should kids play a sport and how seriously How do you think smartly about encouraging children's independence Along with these bigger questions Oster investigates how to navigate the complexity of day to day family logistics Making these decisions is less about finding the specific answer and more about taking the right approach Parents of this age are often still working in baby mode which is to say under stress and on the fly That is a classic management problem and Oster takes a page from her time as a business school professor at the University of Chicago to show us that thoughtful business process can help smooth out tough family decisions *The Family Firm* is a smart and winning guide to how to think clearly and with less ambient stress about the key decisions of the elementary school years Parenting is a full time job It's time we start treating it like one
