The Birth Of The Sun Selected Poems 1935 1985:

The Birth of the Sun Pablo Antonio Cuadra, Steven F. White, 1988-01 **Literature and the Metaphoric Universe in the Mind** Nicolae Babuts, 2015-09-30 Nicolae Babuts believes that the study of metaphoric thought and literature can be enriched by the application of recent discoveries from neuroscientific experiments He maintains that metaphors are neither linguistic formations nor conceptual formations but instead the product of association of images and language They are a matter of vision Memory is an essential component in the creation of meaning and is the way the mind receives messages from the outside world In this process of transferring data from the outside world the mind's overriding tendency is to integrate and interpret Thus incoming messages are recognized and given meaning whether they are in harmony with the inner world of the mind or in conflict with it Babuts argues that the literature we read is related to our perception of reality And reality has two identities the physical identity of the outside world and its symbolic identity within memory The symbolic identity of the outside world is represented internally by the metaphoric universe in the mind *Say This of Horses* Charles E. Greer, C.E. Greer, Jenny Kander, 2007-04 Containing more than a hundred poems by seventy four poets of twenty two nationalities *Say This of Horses* represents the abundance of poems about horses that have been written throughout the ages and around the world Whether probing the ages old connection between horses and humans the immediate physical presence of horses or the metaphysical elements of these magnificent animals this collection celebrates the horse as what Maxine Kumin calls our enduring myth the repository for our love and terror Divided into six sections *Say This of Horses* considers horses in a multitude of times and places *Antiquity* explores the forging of the earliest mythical ties between horses and humans *Here Now* places horses in the present where their physical presence is most acutely felt *Essence* explores the metaphysical qualities of horses *Harnessed* contains a selection of poems about horses in war at work and in sport and recreation *Mirrors* shows them as imaginative symbols Finally *Lenses* moves into the realm of abstraction and fantasy The selections within this far reaching collection are joyous moving erudite and at times profoundly sad Poems by Henry Wadsworth Longfellow W S Merwin Tess Gallagher Yusef Komunyakaa Pablo Neruda Anne Sexton Wallace Stevens May Sarton Jane Kenyon and James Dickey among many others are sure to delight and surprise readers familiar with or just exploring the rich literature on horses Contributors include Guillaume Apollinaire Gwendolyn Brooks Lawrence Ferlinghetti C E Greer Donald Hall Joy Harjo Imru al Qays Ted Kooser Philip Larkin Ann McCarthy de Zavala Rainer Maria Rilke Patiann Rogers William Carlos Williams **Latin American Vanguards** Vicky Unruh, 1994-12-15 In this first comprehensive study of Latin America's literary vanguards of the 1920s and 1930s Vicky Unruh explores the movement's provocative and polemic nature Latin American vanguardism a precursor to the widely acclaimed work of contemporary Latin American writers was stimulated by the European avant garde movements of the World War I era But as Unruh's wide ranging study attests the vanguards of Latin America emerging from the continent's own historical circumstances developed a very distinct character

and voice Through manifestos experimental texts and ribald public performance the vanguardists work intertwined art culture and the politics of the day to produce a powerful brand of aesthetic activism one that sparked an entire rethinking of the meaning of art and culture throughout Latin America

Sites of Memory in Spain and Latin America Aída Díaz de León, Marina Llorente, Marcella Salvi, 2015-09-03 Sites of Memory in Spain and Latin America is a collection of essays that explores historical memory at the intersection of political cultural social and economic forces in the contexts of Spain and Latin America The essays here focus on a variety of forms of memory from the most concrete to the performative that resist forgetting and unite individuals against hegemonic memory The volume comprises four thematic sections that focus on Chile Spain Argentina Venezuela Mexico Peru and the Dominican Republic Keeping in line with the concept informing this collection that the past returns politically to haunt the present the four sections move from the contemporary context to the colonial and pre Columbian eras in Latin America For all its diversity the researchers interdisciplinary methodology displayed in this collection brings to light processes that would otherwise have remained illegible under a more narrow interpretative approach to historical memory This volume focuses on the processes of remembering in geographies that have been transformed by violence and conflict in Spain and Latin America In the cases investigated witnessing trauma and testimony speak to the urgency of truth and justice historical memory therefore is ultimately a political act
