The Blue World:

Keats and Philosophy Shahidha Bari, 2012-09-10 John Keats remains one of the most familiar and beloved of English poets but has received surprisingly little critical attention in recent years This study is a fresh contribution to Keats criticism and Romantic scholarship positioning Keats as a figure of philosophical interest who warrants renewed attention Exploring Keats's own Romantic accounts of feeling and thinking this study draws a connection between poetry and the phenomenological branches of modern philosophy The study takes Keats's poetic evocation of touching hands wandering feet beating hearts and breathing bodies as a descriptive elaboration of consciousness and a phenomenological account of experience The philosophical terms of analysis adopted here challenge the orthodoxies of Keats scholarship traditionally characterised by the careful historicisation of a limited canon The philosophical framework of analysis enhances the readings put forward while Keats's poems in turn serve to give fuller expression of those ideas themselves Using Keats as a particular case this book also demonstrates the ways in which theory and philosophy supplement literary scholarship History of Blue Earth County and biographies of its leading citizens Thomas Hughes, 1901-01-01 *Linwae's Journal* Dennis Ruiz Jr., 2019-02-12 In the age of fairies Linwae is the sole survivor of a lost water fairy race and she narrates you through an extraordinary journey of how Princess Ethinia of the ice fairies and Prince Ardian of the fire fairies find each other fall in love and then learn that their two opposite worlds can coexist but they also realize that their love will also cause a war between the ice and fire fairies Linwae has envisioned this fairy tale in a dream and she writes down her visions in this book that accurately shows the future Since these visions haven't all happened yet she can only call this her story about two fairies who will determine the fate of their races They have the power to recreate a lost race of water fairies but at what cost Hopefully they won't suffer the same fate that the water fairies did and will make the right decision They will have to make the biggest choice of their young lives love for each other or life for their civilizations **e-Services** Alfredo M. Ronchi, 2019-04-17 This book explores various e-Services related to health learning culture media and the news and the influences the Web and related technologies have had and continue to have in each of these areas both on service providers and service users It provides insights into the main technological and human issues regarding healthcare aging population recent challenges in the educational environment the impact of digital technologies on culture and heritage cultural diversity freedom of expression intellectual property fake news and last but not least public opinion manipulation and ethical issues Its main aim is to bridge the gap between technological solutions their successful implementation and the fruitful utilization of the main set of e-Services mostly delivered by private or public companies Today various parameters actively influence e-Services success or failure cultural aspects organisational and privacy issues bureaucracy and workflows infrastructure and technology in general user habits literacy capacity or merely interaction design This includes having a significant population of citizens who are willing and able to adopt and use online services as well as developing the managerial and technical
