Randolph Trumbach reconstructs the worlds of eighteenth century prostitution illegitimacy sexual violence and adultery In those worlds the majority of men became heterosexuals by avoiding sodomy and sodomite behavior As men defined themselves more and more as heterosexuals women generally experienced the new male heterosexuality as its victims But women as prostitutes seduced servants remarrying widows and adulterous wives also pursued passion The seamy sexual underworld of extramarital behavior was central not only to the sexual lives of men and women but to the very existence of marriage the family domesticity and romantic love London emerges as not only a geographical site but as an actor in its own right mapping out domains where patriarchy heterosexuality domesticity and female resistance take vivid form in our imaginations and senses As comprehensive and authoritative as it is eloquent and provocative this book will become an indispensable study for social and cultural historians and delightful reading for anyone interested in taking a close look at sex and gender in eighteenth century London
