## **The Doomsday:**

The Doomsday Calculation William Poundstone, 2019-06-04 From the author of *Are You Smart Enough to Work at Google* a fascinating look at how an equation that foretells the future is transforming everything we know about life business and the universe In the 18th century the British minister and mathematician Thomas Bayes devised a theorem that allowed him to assign probabilities to events that had never happened before It languished in obscurity for centuries until computers came along and made it easy to crunch the numbers Now as the foundation of big data Bayes formula has become a linchpin of the digital economy But here s where things get really interesting Bayes theorem can also be used to lay odds on the existence of extraterrestrial intelligence on whether we live in a Matrix like counterfeit of reality on the many worlds interpretation of quantum theory being correct and on the biggest question of all how long will humanity survive The Doomsday Calculation tells how Silicon Valley s profitable formula became a controversial pivot of contemporary thought Drawing on interviews with thought leaders around the globe it s the story of a group of intellectual mavericks who are challenging what we thought we knew about our place in the universe The Doomsday Calculation is compelling reading for anyone interested in our culture and its future

The Doomsday Box Herbie Brennan, 2010-12-28 When the CIA created a program to research time travel in the 1940s they never imagined it could lead to a global pandemic decades later But after an undercover agent code name Cobra exploits the time travel operation to send the black plague into the twenty first century the supernatural teen spies of the Shadow Project are recruited to go back in time to Cold War era Russia and prevent this devastating chain of events from occurring There s just one problem How do four teenagers deter a seasoned CIA agent from his life or death mission Michael Danny Opal and Fuchsia a new agent with mysterious abilities will have to use their powers of astral projection and persuasion to convince Cobra that what s at stake could hit closer to home than he can imagine That is if they can even manage to survive in Moscow in the early 1960s where the KGB wants them dead
