[The Art of Return](#) James Meyer,2019-09-11 More than any other decade the sixties capture our collective cultural imagination And while many Americans can immediately imagine the sound of Martin Luther King Jr declaring I have a dream or envision hippies placing flowers in gun barrels the revolutionary sixties resonates around the world China s communist government inaugurated a new cultural era African nations won independence from colonial rule and students across Europe took to the streets calling for an end to capitalism imperialism and the Vietnam War In this innovative work James Meyer turns to art criticism theory memoir and fiction to examine the fascination with the long sixties and contemporary expressions of these cultural memories across the globe Meyer draws on a diverse range of cultural objects that reimagine this revolutionary era stretching from the 1950s to the 1970s including reenactments of civil rights

antiwar and feminist marches paintings sculptures photographs novels and films Many of these works were created by artists and writers born during the long Sixties who were driven to understand a monumental era that they missed These cases show us that the past becomes significant only in relation to our present and our remembered history never perfectly replicates time past This Meyer argues is precisely what makes our contemporary attachment to the past so important it provides us a critical opportunity to examine our own relationship to history memory and nostalgia

### **Sherrie Levine**

Howard Singerman,2018-09-04 Texts including essays reviews and statements by the artist on the work of Sherrie Levine The artist Sherrie Levine b 1947 is best known for her appropriations of work by other artists most famously for her rephotographs of canonical images by Edward Weston Eliot Porter and other masters of modern photography Since those works of the early 1980s she has continued to work on and after artists whose names have come to define modernism making sculpture after Brancusi and Duchamp paintings after Malevich and Blinky Palermo watercolors after Matisse and Miro photographs after Monet and Cezanne as well as Alfred Stieglitz Throughout Levine s practice effectively uncompleted decentered and extended works of art that were once singular and finished posing critical rebuttals to some of the basic assumptions of modernist aesthetics Her work was central to the theorization of postmodernism in the visual arts most notably as it emerged in the pages of October magazine It challenged authorial sovereignty and aesthetic autonomy and invited readings that opened onto gender history and the economic and discursive processes of the art world This collection gathers writings on Levine from art magazines exhibition catalogs and academic journals spanning much of her career The volume begins with texts by Douglas Crimp Rosalind Krauss and Craig Owens that situate Levine in postmodernist discourse and link her early work to October The essays that follow draw on these first critical forays and complicate them at once deepening and resisting them as Levine s own work has done All the essays attempt to understand the relationship between Levine and the artists she cites and the objects that she recasts In these pages Levine s oddly doubled works appear as chimeras taxidermy fandom pratfalls even Poussin s Blind Orion Contributors Michel Assenmaker Douglas Crimp Erich Franz Catherine Ingraham David Joselit Susan Kandel Rosalind Krauss Sylvia Lavin Sherrie Levine Maria Loh Stephen Melville Craig Owens Howard Singerman

*Marcel Duchamp's Fountain* Robert Kilroy,2017-12-04 This book marks the centenary of Marcel Duchamp s Fountain by critically re examining the established interpretation of the work It introduces a new methodological approach to art historical practice rooted in a revised understanding of Lacan Freud and Slavoj i ek In weaving an alternative narrative Kilroy shows us that not only has Fountain been fundamentally misunderstood but that this very misunderstanding is central to the work s significance The author brings together Duchamp s own statements to argue Fountain s verdict was strategically stage managed by the artist in order to expose the underlying logic of its reception what he terms The Creative Act This book will be of interest to a broad range of readers including art historians psychoanalysts scholars and art enthusiasts interested in visual culture and ideological critique
