## **The Divorce Racket:**

**The Divorce Racket** Stanley M. Rosenblatt, 1969      Living through the Racket Corina Morariu, 2010-02-15 Leukemia brought Corina Morariu to the brink of death but ultimately it saved her life She was 23 and at the height of her professional tennis career a top 30 singles player the 1 ranked doubles player in the world in 2000 and the winner of Grand Slam titles at both Wimbledon in 1999 with Lindsay Davenport and the Australian Open Mixed doubles in 2001 Then in May 2001 Corina Morariu was diagnosed with an advanced form of acute myelogenous leukemia and found herself in the match of a lifetime After a grueling regimen of chemotherapy Corina returned to competitive tennis 16 months after her diagnosis She was named the WTA Tour Comeback Player of the Year in 2002 but the effects of the leukemia lingered On the court she struggled to come to terms with the cancer and two subsequent shoulder surgeries that diminished her physical capabilities as a tennis player Off the court she struggled to redefine herself in the wake of her trauma In this honest unsparing memoir Corina opens up about what it s like to be an athlete diagnosed with cancer and how her battle with leukemia changed her in every way She reassessed everything her devotion to tennis her lifelong mission to be the perfect daughter even her marriage She took charge of her own life often with devastating consequences to her and those she loved most In the end leukemia gave this world class athlete much more than it took away the challenge to look deeper within herself and the strength to change her life and she reveals the extraordinary lessons she learned along the way It is Corina s journey of self discovery that will make her story incredibly poignant and uplifting to everyone who reads it tennis player or not      Five Hospitals and a Medical Journey Through Hell Roger E. Gussett, 2018-06-26 In this memoir Roger reveals at the age of twenty Terry was diagnosed with ovarian cancer and was not expected to live Despite her dire prognosis she survived radiation treatments but was left with side effects that continued to plague her throughout her lifetime Roger focuses on Terry s medical long term effects from the early radiation treatments that over many years resulted in her deteriorating health In medicine he discusses Terry s successes but also reveals the inexcusable events that ultimately led to her untimely death at the age of sixty seven Roger discusses the doctor s and hospital s differences in opinions of how best to address the same medical calamity third spacing which resulted in very different results Five Hospitals and a Medical Journey Through Hell is a story of an intestinal obstruction surgical failure in 2013 not revealed for nearly one year The surgical failure resulted from the medical condition third spacing whereby doctors did not adequately control fluid that entered the pleural and peritoneal cavities One year later in 2014 re obstruction corrective surgery was effective at a different hospital when early intervention of third spacing prevented surgical failure Then in 2016 a spinal abscess surgical procedure was performed at that same hospital as in 2014 An entirely different group of doctors were responsible for the post surgical after care Again failure to adequately control third spacing as had happened in the first intestinal obstruction resulted in complications eventually leading to Terry s removal from life support      *The Politics of Child Support in America* Jocelyn
