Ingenuity in Mathematics Ross Honsberger, 1970 **Ingenuity in Mathematics** ,1961 **Poetic Logic and the Origins of the Mathematical Imagination** Marcel Danesi, 2023-09-02 This book treats eighteenth century Italian philosopher Giambattista Vico's theory of poetic logic for the first time as the originating force in mathematics transforming instinctive counting and spatial perception into poetic metaphorical symbolism that dovetails with the origin of language It looks at current work on mathematical cognition from Lakoff and Nez to Butterworth Dehaene and beyond matching it against the poetic logic paradigm In a sense it continues from where Kasner and Newman left off connecting contemporary research on the mathematical mind to the idea that the products of early mathematics were virtually identical to the first forms of poetic language As such this book informs the current research on mathematical cognition from a different angle by looking back at a still relatively unknown philosopher within mathematics The aim of this volume is to look broadly at what constitutes the mathematical mind through the Vichian lens of poetic logic Vico was among the first to suggest that the essential nature of mind could be unraveled indirectly by reconstructing the sources of its modifications his term for creations that is by examining the creation and function of symbols words and all the other uniquely human artifacts including mathematics the mind has allowed humans to establish the world of civil society Vico's term for culture and civilization The book is of interest to cognitive scientists working on math cognition It presents the theory of poetic logic as Vico articulated it in his book *The New Science* examining its main premises and then applying it to an interpretation of the ongoing work in math cognition It will also be of interest to the general public since it presents a history of early mathematics through the lens of an idea that has borne fruit in understanding the origin of language and symbols more broadly Proceedings of the London Mathematical Society London Mathematical Society, 1939 Papers presented to J E Littlewood on his 80th birthday issued as 3d ser v 14 A 1965 **Mathematics Magazine** ,1984 **Enriching Mathematics in the Primary Curriculum** Sue Pope, Pablo Mayorga, 2019-03-11 How do I enrich children's learning of primary mathematics to bring the subject to life This book inspires and supports you the new and beginning teacher to use talk rich and open tasks that bring mathematics to life in your classroom Tried and loved practical tasks that engage and motivate Supports you to create confident and resilient mathematicians in your classroom Explores ways to engage children in mathematics across the primary curriculum Focuses on understanding key mathematical concepts and the connections between them *Problem Solving in School Mathematics* ,1980 **Problem Solving in the Mathematics Curriculum** Alan H.
