companies gain from standard practice sending managers to diversity training to reveal their biases then following up with hiring and promotion rules and sanctions to shape their behavior Almost nothing changes It s time Dobbin and Kalev argue to focus on changing the management systems that make it hard for women and people of color to succeed They show us how the best firms are pioneering new recruitment mentoring and skill training systems and implementing strategies for mixing segregated work groups to increase diversity They explain what a difference ambitious work life programs make And they argue that as firms adopt new systems the key to making them work is to make them accessible to all not just the favored few Powerful authoritative and driven by a commitment to change Getting to Diversity is the book we need now to address constructively one of the most fraught challenges in American life
