Technology Education in the Classroom Senta A. Raizen,1995-09-29 In this book the authors provide a vision of what a coherent K 12 technology education program for America s schools might look like and what it might achieve Using classroom vignettes the authors explain how to construct a series of multi year courses or course sequences that give students direct experience in designing products structures and systems to meet individual and social needs *Journal of Engineering Education* ,1998 *Guide to the History of Technology in Europe* 1996 Sarah Angliss,1996 **Developing Technology Education** Aki Rasinen,2000 Yhteenveto *Shaping Concepts of Technology* Marc J de Vries,Arley Tamir,1997-07-31 What is the nature of technology And what is the body of knowledge for technology Those questions are discussed both in the philosophy of technology and in technology education but in different ways Philosophers develop valid

concepts of technology and educationalists reflect on the way such concepts can be built up in the minds of pupils and students Not only the overall concept of technology but also specific concepts within technology are presented both from philosophical and from educational perspectives This book shows how the philosophy of technology can provide an academic background for the development of technology education At the same time it helps philosophers to take into account the intuitive ideas people hold in their considerations about the true nature of technology The texts are adapted versions of papers that were presented at the second Jerusalem International Science and Technology Education Conference held in 1996
