The Dark Light Years:

The Dark Light Years Brian W. Aldiss, 2011-03-17 The Utods are a highly advanced alien species from whom the human race might learn much with superior technology and a profound philosophy But when they meet their customs and conventions are far beneath what humankind considers to be civilized Brian Aldiss's satirical depiction of the first encounter and subsequent violent conflict between mankind and a gentle intelligent race which it cannot understand was first published in 1964 but its archly ironic message of cultural misunderstanding and the potential for catastrophe it entails resonates as strongly today Flies straight to its mark with hardly a word wasted a treat for the fans and required reading for anyone seriously interested in the fiction and ideas of today Kingsley Amis

The Dark Light Years Brian Aldiss, 2025-11-20 The Utods appear to be massive animal like creatures wallowing in their own filth And yet they possess physical and mental powers unknown to man and their world is one of complex philosophy and amazing technology When interstellar explorers capture a number of Utods it seems strange that they cannot communicate with them whilst somehow their own ideas communicated themselves to the Utods all too easily Now Earth is devastated by a terrible conflict of its own making

Dark Light Ken MacLeod, 2012-06-07 A modern day George Orwell SFX A hectic ride through slaloms of audacious complexity irreverent ingenuity and paradox as purposeful as it is playful GUARDIAN The Second Sphere is thousands of light years away from Earth if Earth still exists For Matt Cairns and the cosmonauts of the Bright Star this distant corner of the galaxy is their new home But the Second Sphere is also home to other civilisations lifted from their worlds by a race of god like aliens On Croatan two of these civilisations live a precarious co existence separated by eons of technological advance The arrival of the Bright Star is an event that may trigger disaster for this is the first human crewed starship to arrive at the ancient colony And all the time hidden among the stars the gods are watching They have always been watching Following on from COSMONAUT KEEP which was shortlisted for the 2002 Hugo Award this is the second book in the dazzling new space opera series by one of SF's most exciting new authors Books by Ken MacLeod Fall Revolution The Star Fraction The Stone Canal The Cassini Division The Sky Road Engines of Light Cosmonaut Keep Dark Light Engine City Corporation Wars Trilogy Dissidence Insurgence Emergence Novels The Human Front Newton's Wake Learning the World The Execution Channel The Restoration Game Intrusion Descent
