The Defense Of Moscow

Andrew Nagorski

The Defense Of Moscow:

The Defence of Moscow Geoffrey Jukes, 1970 In this precise and cold account of the defense of Moscow and English historian has combined his own accomplished talents with those of Marshal Zhukov to produce something not to be found anywhere else This book must rank as the outstanding authority on one of the greatest and most terrible campaigns of this or any other century Back cover

The Battle of Moscow 1941-1942 Soviet General Staff, 2015-06-19 The Battle of Moscow 1941 1942 The Red Army's Defensive Operations and Counteroffensive Along the Moscow Strategic Direction is a detailed examination of one of the major turning points of World War II as seen from the Soviet side The Battle of Moscow marked the climax of Hitler's Operation Barbarossa which sought to destroy the Soviet Union in a single campaign and ensure German hegemony in Europe The failure to do so condemned Germany to a prolonged war it could not win This work originally appeared in 1943 under the title Razgrom Nemetskih Voisk pod Moskvoy The Rout of the German Forces Around Moscow The work was produced by the Red Army General Staff's military historical section which was charged with collecting and analyzing the war's experience and disseminating it to the army's higher echelons This was a collective effort featuring many different contributors with Marshal Boris Mikhailovich Shaposhnikov former chief of the Red Army General Staff and then head of the General Staff Academy serving as general editor The book is divided into three parts each dealing with a specific phase of the battle The first traces the Western Front's defensive operations along the Moscow direction during Army Group Center's final push toward the capital in November-December 1941 The study pays particular attention to the Red Army's resistance to the Germans' attempts to outflank Moscow from the north Equally important were the defensive operations to the south of Moscow where the Germans sought to push forward their other encircling flank The second part deals with the first phase of the Red Army's counteroffensive which was aimed at pushing back the German pincers and removing the immediate threat to Moscow Here the Soviets were able to throw the Germans back and flatten both salients particularly in the south where they were able to make deep inroads into the enemy front to the west and northwest The final section examines the further development of the counteroffensive until the end of January 1942 This section highlights the Soviet advance all along the front and their determined but unsuccessful attempts to cut off the Germans Rzhev Vyazma salient It is from this point that the front essentially stabilized after which events shifted to the south This new translation into English makes available to a wider readership this valuable study

Defense of Moscow 1941 Jack Radey, Charles Sharp, 2014-01-01 A must read by historian and layman alike Col David M Glantz author of Kursk An important book that will surely become the definitive account John Prados author of Normandy Crucible Nazi Germany's best chance of winning World War II on the Eastern Front came in October 1941 Most of the Red Army's forces around Moscow had been smashed or encircled and no reserves were available for the capital's defense All that stood in Germany's way was a handful of Soviet rifle divisions tank brigades and militia When their attack ground to a halt the Germans blamed the mud but close examination reveals that it

was the scraped together and poorly coordinated resistance of the Red Army that stopped the Germans Radey and Sharp tell the dramatic story in this study of a pivotal battle in the struggle for supremacy in the East Compelling study of how the Soviets inflicted a stunning defeat on the Germans during the early years of World War II Relies on archival records from both sides to shatter old myths about this battle **The Defense of Moscow** ,1943 *The Battle of Moscow 1941-1942* Richard Harrison,Soviet Staff,2025-11-30 The Battle of Moscow 1941 1942 The Red Army s Defensive Operations and Counteroffensive Along the Moscow Strategic Direction is a detailed examination of one of the major turning points of World War II as seen from the Soviet side The Battle of Moscow marked the climax of Hitler s Operation Barbarossa which sought to destroy the Soviet Union in a single campaign and ensure German hegemony in Europe The failure to do so condemned Germany to a prolonged war it could not win This work originally appeared in 1943 under the title Razgrom Nemetskikh Voisk pod Moskvoy The Rout of the German Forces Around Moscow The work was produced by the Red Army General Staff s military historical section which was charged with collecting and analyzing the war s experience and disseminating it to the army s higher echelons This was a collective effort featuring many different contributors with Marshal Boris Mikhailovich Shaposhnikov former chief of the Red Army General Staff and then head of the General Staff Academy serving as general editor The book is divided into three parts each dealing with a specific phase of the battle The first traces the Western Front s defensive operations along the Moscow direction during Army Group Center s final push toward the capital in November December 1941 The study pays particular attention to the Red Army s resistance to the Germans attempts to outflank Moscow from the north Equally important were the defensive operations to the south of Moscow where the Germans sought to push forward their other encircling flank The second part deals with the first phase of the Red Army s counteroffensive which was aimed at pushing back the German pincers and removing the immediate threat to Moscow Here the Soviets were able to throw the Germans back and flatten both salients particularly in the south where they were able to make deep inroads into the enemy front to the west and northwest The final section examines the further development of the counteroffensive until the end of January 1942 This section highlights the Soviet advance all along the front and their determined but unsuccessful attempts to cut off the Germans Rzhev Vyazma salient It is from this point that the front essentially stabilized after which events shifted to the south This new translation into English makes available to a wider readership this valuable study *The Battle for Moscow, 1941-1942* Albert Seaton,1971 *The Greatest Battle* Andrew Nagorski,2008 A new and beautifully researched account of what had been a poorly understood part of the war New York Review of Books A fine diplomatic and military history but its real triumph is in the voices of the survivors of the Battle of Moscow Washington Post The Battle for Moscow which took place from September 1941 to April 1942 was the biggest battle of World War II indeed the biggest battle of all time Seven million troops were involved The combined losses of both sides amounted to 2.5 million men 2 million on the Russian side Even Stalingrad immortalised in Antony Beevor s classic work

involved half as many troops and less than half as many losses But most of all this battle turned the course of the whole war Hitler had declared war on the Soviet Union and hoped for a swift victory Had Moscow fallen Hitler might have won the war but in the bitter winter the Soviet army held the Germans back But Stalin committed huge strategic blunders initially refusing to arm his troops after Hitler sent his troops east without winter clothing and his reign of terror caused mass looting in Moscow and the flight of half its citizens As a result the Soviets suppressed the full story of the battle and only now have the secret archives been declassified for Andrew Nagorski to tell the full story Anyone gripped and astounded by Stalingrad will find this an amazing account of privation and attrition on an unimaginable scale Andrew Nagorski is a senior editor at Newsweek International He served two tours as Moscow bureau chief and won awards for his foreign reporting He lives in New York

Moscow 1941 Rodric Braithwaite, 2006-01-01 A magnificent narrative of 1941 and the Battle of Moscow by some criteria the biggest battle in history and the Russian ordinary men and women who fought it It was fought over a territory the size of France It cost the Russians as many casualties as the British lost in the whole of the World War I And it marked the first strategic defeat the Wehrmacht had suffered in its hitherto unstoppable march across Europe During the first half of 1941 Moscow and its people were living in a kind of peace in a world of war In spite of the horrors of Stalinism many ordinary people managed to find their own ways of enjoying themselves and when war surprised a country unprepared thanks to Stalin's obduracy most rose with enthusiasm to defend their country and their city One of the points of the book is to try and show how people find a kind of normality even in the hardest of circumstances in peace and in war On the 22 June the Nazi armies invaded and raced across the country By the end of the year they were held finally in the suburbs of Moscow as it were on the A4 at Heathrow Based on huge research and scores of interviews this book offers an unforgettable and richly illustrated narrative of the military action telling portraits of Stalin and his generals some apparatchiks some great commanders It also traces the stories of individuals soldiers politicians and intellectuals writers and artists and dancers workers schoolchildren and peasants The war remains a highly emotional matter for Russia and there are troubling questions like the role of Stalin or the appalling cost of victory The book concludes with reflections on these issues

The Defense of Moscow Jack Radey, Charles C. Sharp, Charles Sharp, 2012 There was only one point in the Second World War when Nazi Germany had a chance of winning October 1941 But the resistance of the Red Army and bad arrogant planning halted the Wehrmacht Using archival records from both sides this book reveals how the Soviets inflicted defeat on a German plan to encircle six Soviet armies

The Battle for Moscow David Stahel, 2015-01-22 In November 1941 Hitler ordered German forces to complete the final drive on the Soviet capital now less than 100 kilometres away Army Group Centre was pressed into the attack for one last attempt to break Soviet resistance before the onset of winter From the German perspective the final drive on Moscow had all the ingredients of a dramatic final battle in the east which according to previous accounts only failed at the gates of Moscow David Stahel challenges this well established narrative by demonstrating that the last German

offensive of 1941 was a forlorn effort undermined by operational weakness and poor logistics and driven forward by what he identifies as National Socialist military thinking With unparalleled research from previously undocumented army files and soldiers letters Stahel takes a fresh look at the battle for Moscow which even before the Soviet winter offensive threatened disaster for Germany's war in the east

Battle For Moscow Albert Seaton, 1993-10-21 A German capture of Moscow in 1941 would have knocked Russia out of the war a riveting narrative of this crucial battle by a British officer with a deep knowledge of the East European sources

The Defense of Moscow 1941 Jack Radey, Charles Sharp, 2013-01-19 The little known story of the Battle of Kalinin on the eastern front and how it shaped the course of WWII based on archival records from both sides There was only one point in the Second World War when Nazi Germany had a chance of winning That point was October 1941 when most of the Red Army's forces before Moscow had been smashed or encircled and no reserves were available to defend the capital All that stood in Hitler's way were a handful of Soviet rifle divisions tank brigades and hastily assembled militia According to German accounts their spearheads were stopped by the mud but a close examination of German records shows this was not so Instead it is clear that it was the resistance of the Red Army and bad arrogant planning that halted the Wehrmacht This is the dramatic story that Jack Radey and Charles Sharp tell in this compelling study of a previously unknown part of the Battle of Moscow Using archival records from both sides they reveal how the Soviets inflicted a stunning defeat on a German plan to encircle six Soviet armies in the middle of October 1941

The Greatest Battles in History Charles River Charles River Editors, 2015-09-17 Includes pictures Includes accounts of the battle written by participants on both sides Includes online resources and a bibliography for further reading Includes a table of contents We underestimated the enemy's strength as well as his size and climate Heinz Guderian World War II was fought on a scale unlike anything before or since in human history and the unfathomable casualty counts are attributable in large measure to the carnage inflicted between Nazi Germany and the Soviet Union during Hitler's invasion of Russia and Stalin's desperate defense The invasion came in 1941 following a nonaggression pact signed between the two in 1939 which allowed Hitler to focus his attention on the west without having to worry about an attack from the eastern front While Germany was focusing on the west the Soviet Union sent large contingents of troops to the border region between the two countries and Stalin's plan to take territory in Poland and the Baltic States angered Hitler By 1940 Hitler viewed Stalin as a major threat and had made the decision to invade Russia In the course of this contest Russia must be disposed of Spring 1941 The quicker we smash Russia the better While a legend exists today that Hitler's strategic fecklessness destroyed Germany's chances despite the wise objections of the Wehrmacht general staff OKW the actual situation in 1941 resembled the precise reverse of this familiar historical trope The historian Robert Forczyk argues convincingly that the Fuhrer retained his full strategic acumen in 1941 until he ill advisedly adopted the suggestions of the OKW and diverted forces in a winter campaign to seize the Soviet capital leading to the Battle of Moscow The Third Reich's dictator initially viewed Moscow as a relatively trivial

objective only to be seized once the Red Army suffered defeat in detail In fact he planned a pause during the bitter Russian winter conserving German strength for a fresh offensive in spring of 1942 Wisely According to Chief of Operations Colonel Heusinger Hitler manifested an instinctive aversion to treading the same path as Napoleon Moscow gives him a sinister feeling Despite the obstructionism of the OKW General Staff centered around Fedor von Bock Franz Halder and Brauschitsch who obsessed over taking Moscow and reacted to the Fuhrer s focus on the south with open rage and contempt the southern offensive went ahead securing another stunning victory over the Soviets and seizing the economically vital Donets Basin In the meantime Stalin immolated hundreds of thousands of his own soldiers in futile attacks against Army Group Center holding the German front facing Moscow Halder ultimately drafted the plan for Operation Typhoon the October 1941 thrust towards Moscow and Hitler showed considerable reluctance to agree to the attack believing it best if the Germans suspended operations until spring Halder and his OKW clique persisted however badgering the Fuhrer until Hitler imprudently yielded to their demands The head of the Third Reich apparently succumbed to Halder s and Bock s importuning mostly due to unrestrained ebullience over the southern success He felt that at this stage nothing could go wrong In doing so he forgot the keenly insightful precept of the 17th century samurai general Oda Nobunaga who declared After a victory tighten your helmet straps Far from maintaining his focus however Hitler relaxed and let his guard down His surrender to Halder s impractical plan signaled the beginning of an ominous reversal of Wehrmacht fortunes whose seeds sprouted at the Battle of Moscow The Greatest Battles in History The Battle of Moscow During World War II chronicles the operations that saw the Soviets push back the Nazis from their capital Along with pictures of important people places and events you will learn about the Battle of Moscow like never before

The Battle for Moscow, 1941-1942 Albert Seaton, 1971

The Battle for Leningrad David M. Glantz, 2002 Based on an unparalleled access to Russian archival sources and going far beyond the military aspects of other historical works Glantz s book is a testament to the nearly two million Russians who lost their lives during the battle for Leningrad 90 illustrations 16 maps

Moscow 1941 Rodric Braithwaite, 2010-12-09 The story of the invasion of Moscow told through its people Fought over a territory the size of France the Battle of Moscow in 1941 cost the Russians as many casualties as the British lost in WW1 It marked the first strategic defeat of the Wehrmacht and halted their seemingly unstoppable advance across Europe This is the story of that battle and the ordinary men and women who fought it Based on huge research and scores of interviews this book offers an unforgettable and richly illustrated narrative of the military action that took place in Moscow during 1941 It paints telling portraits of Stalin and his generals some apparatchiks some great commanders It also traces the individual stories of soldiers politicians and intellectuals writers and artists and dancers workers schoolchildren and peasants Putin s invocations in contemporary propaganda shows that the Great Patriotic War remains highly emotional for Russia and many former Socialist Republics Many of these countries must grapple with troubling legacies behind the appalling cost of victory from the role of Stalin to the complicity of collaborationist forces from

the occupied USSR in atrocities both behind the front line and the rapid Nazi advance *Directory of Soviet Research and Educational Organizations* United States. Central Intelligence Agency,1964 **Operation Typhoon** David Stahel,2015 The launch of Operation Typhoon heralded the opening of one of the biggest German offensives of World War II Indeed it is surpassed in scale only by the German operations to invade France and the Low Countries in May 1940 Case Yellow and the Soviet Union itself in June 1941 Operation Barbarossa Although the fighting on the Eastern Front is arguably best known for Hitler s 1942 offensive to reach and conquer the oil fields of southern Russia Case Blue culminating in the battle for Stalingrad Army Group South s 1942 summer offensive involved only half the number of German troops employed for Operation Typhoon **The Military Uses of Literature** Mark T. Hooker,1996-05-14 This book studies the made to order genre of socialist realist fiction that was produced at the direction of the Main Political Directorate of the Soviet Army and Navy MPD as a part of the war for men s minds waged by the Soviet State The first chapter is a history of the genre tracing it from its roots in the Revolution to the dissolution of the MDP in 1991 Topics examined in the book include the attitude toward Germans following World War II the retirement of the World War II generation military wives Dear John letters life at remote posts the military as a socializing institution the use of lethal force by sentries attitudes toward field training exercises heroism and initiative legitimacy of command and the reception of Afghan vets Companion to Colossus Reborn David M. Glantz,2005 This book contains the companion appendixes to Colossus Reborn by David Glantz published in 2005 by University Press of Kansas
