*The Details of the Rocket System* Sir William Congreve, 2019-12-03 In *The Details of the Rocket System* Sir William Congreve illuminates the intricacies of military engineering through a thorough examination of his innovative designs in rocketry. Written in the early 19th century, the work embodies the Enlightenment spirit of inquiry, blending scientific detail with a vivid narrative style that captivates both the technical expert and the lay reader. Congreve masterfully contextualizes his designs within the broader tapestry of military strategy, revealing how advancements in technology could reshape warfare and fortifications, making the text a seminal contribution to both literature and military history. As a key figure in British artillery innovation, Sir William Congreve was inspired by the technological advancements of his time as well as the pressing needs of military campaigns. *The Devil Is in the Details* Rachel VanSickle-Ward, 2014-01-01 Seeks to explain the causes of ambiguously worded state legislation. The level of detail in a given law can have dramatic consequences for how that law is interpreted and applied. In *The Devil Is in the Details*, Rachel VanSickle Ward focuses on the dynamics of social policy construction in the United States in order to better understand why the wording of legislation can range from the specific to the ambiguous. When policies are high salience, the fissures produced by partisan discord, interest group diversity, and pluralistic executive branches promote ambiguous policy. When policies are lower profile, this relationship is more tenuous and at times inverted, with contention producing more policy detail. Put simply, on important and controversial legislation, ambiguity serves as a vehicle for compromise when key participants disagree over details. Moreover, fragmentation is a more powerful driver of ambiguity than limits in technical expertise or legislative capacity. This multi-method investigation is the

first to measure statute specificity directly VanSickle Ward combines comprehensive content analysis of more than 250 health and welfare bills passed in 44 states in the 1990s and 2000s with in depth interviews of policy making elites **The Canadian Patent Office record and register of copyrights and trade marks** Kanada Patent Office,1895 **School work. with revisions, additions by J.W.
