Don't let it become the Ultimate Financial Mistake. The BMW E46 3 Series is a legend. It has perfect 50/50 weight distribution, hydraulic steering that talks to your hands, and a timeless design. It is arguably the best car BMW ever built. It is also a 20-year-old German car held together by plastic clips and prayers. If you go to the forums, you'll hear horror stories about subframes cracking, engines overheating in seconds, and repair bills that cost more than the car itself. The purists will tell you that unless you have thousands of dollars for special tools and factory parts, you shouldn't own one. They're wrong. Meet Hank Pop Weaver. He's not a BMW service writer who speaks in part numbers. He's a retired mechanic who believes that a car is just a machine, whether

it was built in Munich or Detroit He knows that underneath the fancy plastic covers your E46 is just nuts bolts and gaskets Pop wrote this guide to prove that you don't need a specialized shop to keep your Bimmer running You just need confidence a basic tool set and the truth about what actually matters Inside you'll learn The Cooling System Overhaul BMW radiators are famous for exploding Pop shows you exactly how to replace the big four parts in one afternoon so you never see a tow truck The Diesel Rattle Why your smooth inline six sounds like a tractor VANOS and the simple rebuild that restores your power The Subframe Truth The scariest myth about the E46 debunked How to check your chassis in five minutes and when to actually panic The Window Regulator Crunch Why BMW windows fall into the doors and how to fix them permanently for less than the cost of a lunch Diagnostics on a Dime How to read BMW specific error codes using a 20 cable instead of paying a shop 150 just to plug in a computer Most manuals are written for technicians This book is written for you the enthusiast who wants to drive their car not just look at it Stop worrying about the next breakdown and start enjoying the drive *Popular Science*, 2004-09 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better **Autocar**, 2004 **Edmund's New Trucks** Edmund's Staff, Edmunds Publications, 1997 The expanded 1997 edition this guide includes information on MSRP and dealer invoice prices standard and optional equipment specifications and reviews and buying and leasing advice *The Official Index to the Financial Times*, 1996 **Popular Mechanics**, 2000-01 Popular Mechanics inspires instructs and influences readers to help them master the modern world Whether it's practical DIY home improvement tips gadgets and digital technology information on the newest cars or the latest breakthroughs in science PM is the ultimate guide to our high tech lifestyle *Autocar & Motor*, 1990-07 *Los Angeles Magazine*, 2004-03 Los Angeles magazine is a regional magazine of national stature Our combination of award winning feature writing investigative reporting service journalism and design covers the people lifestyle culture entertainment fashion art and architecture and news that define Southern California Started in the spring of 1961 Los Angeles magazine has been addressing the needs and interests of our region for 48 years The magazine continues to be the definitive resource for an affluent population that is intensely interested in a lifestyle that is uniquely Southern Californian **Sports Cars Illustrated**, 1998-03 **Ward's Auto World**, 1989-07 **Acura/Honda Automotive SRS/AirBag Repair Manual** Mandy Concepcion, 2011-10 Acura Honda Automotive SRS AirBag Repair Manual A reference and pictorial guide for automotive SRS Air Bag Systems Including all major Acura and Honda Model SRS Air Bags By MANDY CONCEPCION This book is based on the Automotive SRS Air Bag Troubleshooter software by the same author All similarities to this software package are intended Both of these products are copyrighted by the author Mandy Concepcion This book came out of an extensive research conducted during the development of the software product by the same name Modern supplemental restraint systems are a wonder of technology They are in reality pyrotechnic devices in charge of your
