The Daughters Seduction:

Feminism and Psychoanalysis Jane Gallop, 1982 The Daughter's Seduction Jane Gallop, 1982 The Daughter's Way Tanis MacDonald, 2012-09-01 The Daughter's Way investigates negotiations of female subjectivity in twentieth century Canadian women's elegies with a special emphasis on the father's death as a literary and political watershed. The book examines the work of Dorothy Livesay, P. K. Page, Jay Macpherson, Margaret Atwood, Kristjana Gunnars, Lola Lemire Tostevin, Anne Carson, and Erin Mour as elegiac daughteronomies, literary artifacts of mourning that grow from the poet's investigation into the function and limitations of elegiac convention. Some poets treat the father as a metaphor for socio-political power, while others explore more personal iterations of loss, but all the poets in The Daughter's Way seek to redefine daughterly duty in a contemporary context by challenging elegiac tradition through questions of genre and gender. Beginning with psychoanalytical theories of filiation, inheritance, and mourning as they are complicated by feminist challenges to theories of kinship and citizenship, The Daughter's Way debates the efficacy of the literary work of mourning in twentieth century Canadian poetry. By investigating the way a daughter's filial piety performs and sometimes reconfigures such work and situating melancholia as a creative force in women's elegies, the book considers how elegies inquire into the rhetoric of mourning as it is complicated by father-daughter kinship.

Sex in Education Edward Hammond Clarke, 1873 **Girls, Single-Sex Schools, and Postfeminist Fantasies** Stephanie McCall, 2019-11-28 Bringing together feminist theory, girlhood studies, and curriculum theory, this book contributes an in-depth critical analysis of curriculum in single gender schooling for girls in postfeminist landscapes of unlimited choices and resurgences of proper girlhood. The arguments challenge the mainstream assumptions and promotions about the guarantees of female success via small school supports, tailored curricula, protection, school choice, and class advantage. Single gender schools are not homogenous; they have different histories, student populations, finances, and organization. Recognizing this diversity, Girls, Single Sex Schools, and Postfeminist Fantasies draws on rich data collected in two US secondary schools over a two-year period to identify and explore the ambiguities of success in single sex schools for girls. Rich classroom observations and interviews with teachers and students reveal the resounding message delivered to girls that they can have it all by going to college. By exploring students' imaginings, hopes, and doubts around college, the text illustrates how this catalyzes girls' critiques of their futures and of the schooled storylines of female success. While teachers might trumpet college career and limitless horizons, girls seek to understand their social positions and try to make sense of family passions and future happiness. This book will be of great interest to graduate and postgraduate students, academics, researchers, libraries in secondary education, girlhood studies, sociology of education, gender and sexuality in education, single sex schooling, and feminist theory.
