The Dark Page:

Heidegger and Future Presencing (The Black Pages) Spencer Golub, 2019-10-18 This book applies Heidegger's writings to experimental fictions and film genres in order to study a being there that performs itself beyond liveness and a future that is already here. Theatrical mise en scene is analyzed as a way of modeling the Heideggerian ontological existential exchanging a deeper presencing for the fictional now of liveness. The book is organized around ostensible objects that are in fact things as such and performs its theme via time traveling interruptions, decompositions, incompleteness, failure, geometric patterning, and above all, black pages first cited in *Tristram Shandy*. This is a nuanced original work that combines unexpected sources with even more unexpected writing imagery and correspondences. It is part of Golub's ongoing project of lyrically reimagining philosophy and the mise en scene of theatrical performance, a presence room of consciousness in light of one another.
