The Death Of A Nation:

Death of a Nation David W. Noble, 2002 In the 1940s American thought experienced a cataclysmic paradigm shift Before then national ideology was shaped by American exceptionalism and bourgeois nationalism elites saw themselves as the children of a homogeneous nation standing outside the history and culture of the Old World This view repressed the cultures of those who did not fit the elite vision people of color Catholics Jews and immigrants David W Noble a preeminent figure in American studies inherited this ideology However like many who entered the field in the 1940s he rejected the ideals of his intellectual predecessors and sought a new multicultural postnational scholarship Throughout his career Noble has examined this rupture in American intellectual life In *Death of a Nation* he presents the culmination of decades of thought in a sweeping treatise on the shaping of contemporary American studies and an eloquent summation of his distinguished career Exploring the roots of American exceptionalism Noble demonstrates that it was a doomed ideology Capitalists who believed in a bounded nationalism also depended on a boundless international marketplace This contradiction was inherently unstable and the belief in a unified national landscape exploded in World War II The rupture provided an opening for alternative narratives as class ethnicity race and region were reclaimed as part of the nation's history Noble traces the effects of this shift among scholars and artists and shows how even today they struggle to imagine an alternative post national narrative and seek the meaning of local and national cultures in an increasingly transnational world While Noble illustrates the challenges that the paradigm shift created he also suggests solutions that will help scholars avoid romanticized and reductive approaches toward the study of American culture in the future

Death of a Nation Joseph L. Kyle, 2015-04-28 This book presents some very raw facts about the negative aspects of racism and the devastating effects it has on individuals municipalities States the Nation and indeed the world It covers a ten year period in the author's life presented autobiographically from 1940 to 1950 The story is based primarily on historical events as reported in the ex Black weekly newspaper *The Pittsburgh Courier* The news articles are presented as parts of fictionalized dialogue between the author his young peers and older adult advisors Most of the fictionalized accounts have some bases in truth but some did not occur in the sequence or to individuals as presented Names of individuals reported in news media have not been changed nor have the names of family members and teachers Names of townspeople have been changed although a real person existed for that character The primary goal of the book is to present true facts about the history of the disease based on a false premise of race that has caused so much suffering ignorance and despair over centuries in the hope that we will stop perpetuating it and let it die the ignoble death it deserves

Death of A Nation D. B. Lantz, 2010-09 In the year 2041 we find a very different country than the one we have all learned to love This new country is called America The economy is solely based upon the production of food Now more than ever America feeds the entire world With the demise of the United States the world has entered a very dark period The beacon of hope for all mankind has been extinguished The world has not seen any
