The Magic of Death, the Death of Magic Tunde Csoban, 2016-03-16 The magic of death the death of magic is a carefully constructed collection of fictional stories touching the subjects of mystery tragedy and insanity written by the 19 year old hungarian writer and university student Tünde Csobán. The shorts vary in length and style giving the reader a wide selection to enjoy. The title of the collection comes from the last and by far longest story in the book a fantasy short featuring magic in a way we have never seen before. The magic of death the death of magic is the tale of a brave mother risking everything to keep her daughter safe but she might not be the only one in need of saving.

[Barbarian Rites](#) Hans-Peter Hasenfratz, 2011-06-23 Discover the untamed paganism of the Vikings and the Germanic tribes prior to the complete Christianization of Europe. Explores the different forms of magic practiced by these tribes including runic magic, necromancy, death magic, soul travel and shape shifting. Examines their rites of passage and initiation rituals and their most important gods such as Odin, Loki and Thor. Looks at barbarian magic in historical accounts, church and assembly records and mythology as well as an eyewitness report from a 10th century Muslim diplomat. Reveals the use and abuse of this tradition's myths and magic by the Nazis. Before the conversion of Europe to Christianity in the Middle Ages Germanic tribes roamed the continent, plundering villages and waging battles to seek the favor of Odin, their god of war, ecstasy and magic. Centuries later, predatory Viking raiders from Scandinavia carried on similar traditions. These wild barbarians had a system of social classes and familial clans with complex spiritual customs from rites of passage for birth, death and adulthood to black magic practices and shamanic ecstatic states such as the infamous berserker's rage. Chronicling the original pagan tradition of free and wild Europe and the use and abuse of its myths and magic by the Nazis, Hans Peter Hasenfratz offers a concise history of the Germanic tribes of Europe and their spiritual, magical and occult beliefs. Looking at historical accounts, church and assembly records, mythology and folktales from Germany, Russia, Scandinavia and Iceland as well as an eyewitness report of Viking customs and rituals from a 10th century Muslim diplomat, Hasenfratz explores the different forms of magic including charms, runic magic, necromancy, love magic, soul travel and shamanic shape shifting practiced by the Teutonic tribes and examines their interactions with and eventual adaptation to Christianity. Providing in-depth information on their social class and clan structure, rites of passage and their most important gods and goddesses such as Odin, Loki, Thor and Freyja, Hasenfratz reveals how it is only through understanding our magical barbarian roots that we can see the remnants of their language, culture and dynamic spirit that have carried through to modern times.
